Dear MSAAC Members and Friends,

On September 19th, MSAAC held its first general membership meeting of the school year. The meeting laid out our theme for the 2018/2019 school year - magnifying the truth. As we magnify the truth in our school system we respectfully welcome an exchange of diverse ideas and perspectives.

As these conversations take place, we must always keep in mind our mission and our target audience. The Minority Student Achievement Advisory Committee (MSAAC) is dedicated to partnering with Loudoun County Public School (LCPS), parents, and the community to acknowledge and promote the needs of all students, especially minority students. Minority students represent any group of people who, because of their physical or cultural characteristics, are marginalized or singled out for unequal treatment. MSAAC is forever committed to supporting all LCPS students and exists because our students need a voice to stand up for their academic, social, and/or cultural needs.

MSAAC would like to reaffirm to the LCPS community that we do not condone any disparaging or disrespectful remarks about our students and/or their families; all students and families are welcome. To effectively bring about change we must come together and engage in constructive conversations that advance social, cultural, and academic competencies and ensure equitable learning experiences for all students.

Sincerely,

MSAAC Executive Board
