

PARENT ASSESSMENT

Please list three adjectives that describe your child.

- 1.
- 2.
- 3.

Why did you choose these three?

What would you want the admissions office to know about your child that they would not be able to gather exclusively from school records and the college application?

In what areas have you witnessed the most development in your child during high school?

Are there any circumstances that have affected your student's education or personal experiences?

What are your child's career aspirations?

What do you believe is your child's greatest strength?

Is there anything else that you would like to share?
