

The Virginia Community College System and the State Council of Higher Education (SCHEV) have partnered to create a web portal called *Virginia Wizard*.

The *Virginia Wizard* is a comprehensive website that allows students to:

- Explore careers by taking **interest and values assessments** or browse careers by name or cluster
- Search for key information about **programs** across Virginia Community Colleges as well as **course listings and descriptions**
- Figure out how to pay for college by utilizing the *cost calculator* and *award estimator* as well as apply for financial aid and scholarships
- Access **academic calendars** for all Virginia Community Colleges

And best of all...

- Search **transfer agreements** to find the best pathway to a four-year degree
- Browse **guaranteed admission agreements** to more than 20 colleges and universities in Virginia

Students can also view an extensive **FAQ** list, use a *transfer planner* tool to map out their goals and find out if they're eligible for a college **transfer grant**. There's even a **Virginia Community College Online Application** which allows them to create and submit an application for the school of their choice.
