We hope you’re having a wonderful summer and are excited to be back in school again in August! We are so proud of the flexibility you showed last year and we are looking forward to having a great year learning and growing together as a class and community, both socially and academically!

In First Grade you will get to do many new and exciting things! You will become a reader, a writer, a mathematician, a historian, and a scientist. You will get to participate in Art, Music, P.E., Library, Guidance, and SEARCH classes.

As the new school year begins be on a lookout for communication from your teacher about our virtual home visits like we did last year. Also, mark your calendar for Wednesday, September 29th when we will hold our back to school night.

We can’t wait for the first day of school, Thursday, August 26th!

See you soon!

The First Grade Team
