## INFORMATION NIGHT

Odyssey of the Mind is an international creative problem-solving program that engages students in their learning by allowing their knowledge and ideas to come to life in an exciting, productive environment. Participants build self-confidence, develop life skills, create new friendships, and are able to recognize and explore their true potential. OotM proves that students can have fun while they learn.

All OotM solutions require students to perform, not just the sciences, but the arts as well – whether it be set-building, costume-making, creating props, acting, singing, or playing an instrument.
