tax-exempt status of the VRS and/or the Loudoun County School Board and/or the tax-exempt
participation in VRS by Charter School employees (whether or not previously employed by LCPS)
should be in doubt to any extent whatsoever and for any reason, as determined by the Loudoun

Charter School shall indemnify, defend and hold the School Board, its employees and agents
harmless on all costs, obligations, payments or any other loss related to VRS, the Charter School

Loudoun County School Board makes no representation regarding the right of non-LCPS

Charter School’s employer and employee contributions to VRS for non-LCPS employees. This
shall create no liability for the School Board.

set forth in School Board policy. Whenever the word “principal” is used in connection with a

26.10 Adverse Actions. The Division Superintendent or his designee may issue a notice
of intent to dismiss, suspend, re-assign or non-renew the employment of any LCPS employee
assigned to the Charter School in accordance with School Board policy and law after conferring with
the principal. The Charter School will cooperate in reasonably assisting in the process.

26.11 Personnel Files. LCPS will, in accordance with the terms of this Agreement, create
and maintain an official personnel file (OPF) for each LCPS employee assigned to the Charter
School. The School will maintain a local school file (LSF) for each LCPS employee at the school
including all permanent and temporary staff. The Charter School will submit all required original
documents to LCPS for inclusion in the OPF. Such documents will include, but may not be limited
to: signed and dated performance evaluations, classroom observations, counseling letters, and
disciplinary documents. If an employee transfers to another LCPS school or work location, the
Charter School will forward the LSF to the new location. Upon an LCPS employee’s separation
from employment of the Charter School, the School will send the file to the LCPS Employee
Records File Room.

26.12 Records Retention. The Charter School will comply with the LCPS and the Library
of Virginia records retention process, policies and schedules and will limit the number of personnel
who will have access to employee files, and maintain confidentiality of the LSF. Files must be
appropriately secured in a locked cabinet, and in a locked office, to ensure that privacy is maintained.
The School is responsible to ensure that employee files are accounted for at all times.
26.13 Confidentiality of Information. Furthermore, if an outside contractor or other such vendor of the Charter School has access to confidential information, measures to safeguard employee data from outside contractors will be the sole responsibility of the School. If a security breach occurs arising out of Charter School's own technology or use of any technology in the school, the Charter School will be responsible and liable for the costs associated with the security breach and remediation.

26.14 Substitutes. The Charter School’s teachers must use the LCPS substitute system to report all absences and, if needed, to secure substitute teachers who will teach the class(es) in the event of a teacher’s absence. The Charter School will be responsible for the cost of any substitute(s) required to fill daily vacancies in their school resulting from scheduled or unscheduled absences. If requested, the Charter School will provide evidence that they have instructed their staff about the expected use of the substitute system, in compliance with LCPS guidelines for all teachers and teaching assistants.

26.15 Professional Development and Substitutes. If LCPS requires any Charter School employee to attend LCPS-provided professional development, LCPS will bear the cost of any needed substitute. If LCPS makes space available at LCPS-provided professional development for the Charter School, then the Charter School shall be responsible for the cost of the substitutes, if needed.

26.16 Any and all substitute teachers or other staff that may be necessary so that classroom teachers and staff can attend any and all special education meetings, due process or court hearings, IEP team meetings, 504 meetings as well as to attend any and all meetings related to ELL services shall be at the sole expense of the Charter School.

26.17 Workers Compensation. The Charter School is responsible for obtaining its own Workers' Compensation coverage and will indemnify, defend and hold LCPS harmless on any and all workers' compensation claims and costs related to employees working at the Charter School. The Charter School shall require its workers' compensation insurer to list the Loudoun County School Board as additional named insured.

26.18 Employment of Foreign Nationals. Candidates who fail to produce required official documentation proving their eligibility for employment will not be hired, and those for whom documents are subsequently found to have been falsely completed, expired or lapsed will be deemed to have forfeited their position and resigned. The Charter School shall not sponsor any candidates on H-1B visas. The Charter School represents and warrants that the Charter School does not, and shall not during the performance of this Agreement, knowingly employ any unauthorized alien as defined in the Federal Immigration Reform and Control Act of 1986. The Charter School must have the approval from the School Board’s Department of Human Resources and Talent Development (HRTD) prior to hiring any employee and all employees must be and remain legally eligible for employment in the United States at the time of hire and thereafter.

27.0 Criminal Background and History Review. The Charter School shall insure that all employees and contracted instructional vendors receive state and federal criminal background checks, including child abuse and neglect checks, in accordance with Virginia law (Sections 22.1-296.1, 22.1-296.2 and 22.1-296.3) prior to employment and that no employee is employed who has a prohibited conviction under Virginia law. The Charter School shall use the School Board's
Department of Human Resources and Talent Development (HRTD) to conduct the fingerprinting and to request the background checks.

28.0 **Funding Process.** The Charter School shall cooperate in any required processes to ensure the appropriate and timely reporting of data and the transfer of funds to the Charter School in accordance with the law.

28.1 **Funds.** To the extent it is constitutionally valid, the School Board shall disburse to the Charter School an amount of per pupil funds for school aged students that is commensurate with the amount of the average school-based costs of educating students in the existing schools of the school division unless the cost of operating the charter school is less than the average school-based costs. The Charter School shall disclose all costs of operating the school. School Board funds received by the Charter School shall not be used or transferred for the use of any other charter school without the advance approval of the School Board.

28.2 **Funds.** Subject to the terms of this agreement and the law, LCPS will remit funds subject to certain deductions calculated on an annualized basis as follows:

1. The annual budgeted average per pupil funding (PPF) for LCPS shall be determined by LCPS based upon the actual appropriated funding from the Board of Supervisors and reconciled (if needed) by the School Board.

2. The number of Charter School students to whom the annualized per pupil cost amount shall be applied shall be based on Average Daily Membership (ADM). ADM is determined twice per year - once in September and once in March in accordance State law and regulations.

3. LCPS will make three (3) annualized calculations per year to adjust actual Charter School funding to the ADM throughout the year: a July projected calculation of the September ADM count, an annualized calculation based on the actual September ADM count and a final annualized calculation based on the actual March ADM count in the following fashion:

   a. As early in July as reasonably possible and subject to appropriated funds, LCPS will reasonably estimate the projected September ADM count and multiply that pupil count times the PPF budgeted average per pupil funding (PPF) for LCPS.

   b. Thereafter, LCPS will calculate the Special Education and English Language Learners Services (ELL) components of that PPF and multiply those component by the projected September ADM.

   c. Next, the parties agree that the U.S. Department of Education federal indirect cost rate as calculated by the Virginia Department of Education (VDOE) shall be to represent the indirect or general overhead portion (also known as non-school-based cost) of the budgeted average per pupil cost for the school year of the Charter
School. Each year, when VDOE issues the new federal indirect cost rates, the new rate will become effective for the school year following the school year for which it was published to allow the Charter School time for planning and budgeting.

d. Therefore, the resultant figure from Line A shall be reduced by the applicable federal indirect cost rate.

e. The Special Education and ELL Services funding in Line B shall be reduced by the applicable federal indirect cost rate.

f. Then, the resultant figure from Line D shall be further reduced by the resultant figures for Special Education and ELL Services from Line E.

g. Next, the actual gross salary and the cost of all employer-paid fringe benefits, including, but not limited to, the employer contribution to the Virginia Retirement System and employee benefit plans, for LCPS employees assigned to the Charter School will be reasonably estimated for the school year.

h. The resultant annualized figure from Line F shall be further reduced by the annualized resultant figure from Line G to arrive at the funding which will be remitted to the Charter School in equal quarterly installments, subject to deductions for amounts owed by the Charter School to LCPS, paid to the Charter School at the first of each quarter, until the next re-calculation based upon the actual September ADM count.

i. Once the actual September ADM count is received, the above process will be followed to recalculate the funding remitted quarterly to the Charter School. The new annualized calculation shall be to adjust the payment up or down to the current calculation in the future payments to be made. The process is repeated again after the March ADM count is received. If the March annualized recalculation would result in an overpayment to the Charter School for the current school year, then the Charter School shall be liable for the overpayment within 30 days of invoice and the overpayment, if it continues, will continue to be deducted into the following school year from funds owed, if the Charter School continues to operate. If the Charter School ceases to operate, then the overpayment shall continue to be a liability of the Charter School to the School Board.

j. Similarly, reconciliation of salary and employer-paid fringe benefits actual costs versus estimated costs may be periodically conducted on or after September 30 each year. Any costs owed by the Charter School following the last installment payment by LCPS for the
school year shall be remitted directly to LCPS within 30 days of invoice. If the Charter School ceases to operate, any overpayment or unpaid cost amount shall continue to be a liability of the Charter School to the School Board. This does not in any way waive the School Board’s option to declare a breach of contract and revoke the contract for default of payment.

28.3 Funding Contingency. This Charter Agreement is subject to the annual budget approval by the School Board and the annual budget appropriations of funds by the County of Loudoun Board of Supervisors. If sufficient funding is not appropriated and approved for this agreement as determined by the School Board, then the agreement shall be cancelled with no liability to the School Board.

29.0 Service Agreements. If needed, the Charter School may separately request to negotiate with the School Board a cost-reimbursement service agreement service not already provided herein. The Charter School will make its own arrangements for school breakfast, if needed, and lunch.

30.0 Special Education (SPED) and English Language Learner (ELL) Services. The Charter School is a public school under the supervision of the School Board which is the local educational agency under federal and state law. As stated below, LCPS will be responsible for required SPED and ELL services and will retain those portions of the PPF from any funds due to the Charter School. The provisions of 27.16-27.18 herein regarding substitutes requires the Charter School to pay for any substitutes that may be necessary so that classroom teachers and staff can attend any and all special education meetings, due process or court hearings, IEP team meetings, 504 meetings as well as to attend any and all meetings related to ELL services.

30.1 General.

1. While LCPS will provide special education services, the Charter School will ensure overall compliance with all federal, state, and local statutes and regulations involved in educating students suspected of having an educational disability (see 34 CFR §300.111(c) (1) referencing §300.8), even though they are advancing from grade to grade, and students identified with disabilities who are in need of an Individualized Education Plan (IEP) or accommodations under Section 504. Each member of the School’s IEP team (including all administrators, special educators and related service providers) shall attend any and all Special Education, database use, Student Information System (SIS) use and other training as required by the Superintendent.

2. Only the LCPS Special Education Supervisor has authority to bind LCPS for any services in an IEP or at IEP team meeting or due process or mediation session. The LCPS Special Education Supervisor shall be a required attendee at all IEP team meetings, due process hearings and mediation sessions.
30.2 Services. LCPS will be responsible for special education services, including IEP-required transportation, for students in accordance with the Individuals with Disabilities Education Act and the Individuals with Disabilities Education Improvement Act (20 U.S.C. § 1401 et seq.), the Americans with Disabilities Act (42 U.S.C. § 12101 et seq.), and Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. § 794 et seq.). This includes full compliance with the special education IEP team process for students suspected of having an educational disability pursuant to 34 CFR §300.111(c)(1) or those already identified with an educational disability and who qualify for specialized instruction. The Charter School shall cooperate in facilitating these efforts.

30.3 IEPs. Federal and State regulations require the regular monitoring of IEP progress on a quarterly basis. This should be aligned with the Charter School's report card and grading system. If the School suspects that a child's needs exceed the ability of the Charter School to implement a student's IEP at the Charter School, the Charter School will expeditiously contact the assigned LCPS Department of Special Education personnel for a consultation. If LCPS staff together with the School IEP team determine that the School cannot implement the IEP, an IEP team meeting will convene to determine if the IEP is appropriate, revise as necessary, and determine placement. The Charter School's failure to comply with this provision, after notice and an opportunity to cure is grounds for revocation of the charter and may also, without the need for placing the Charter School on probation, result in a suspension of payments to the Charter School and/or revocation. Within two (2) days of the enrollment of each student, the Charter School shall supply the name of the student to the Director of Special Education to determine if the student has been found eligible for services in accordance with the Individuals with Disabilities Education Act or Section 504 of the Rehabilitation Act and to arrange services. A LCPS Special Education representative or designee will be entitled to attend and participate in all IEP team meetings and any other activities related to the provision of special education and services to students.

30.4 Due Process Requests. The Charter School will work closely with LCPS to ensure that all students suspected of having an education disability pursuant to 34CFR §300.111(c)(1) or students with Individualized Education Programs (IEPs), and students with plans under Section 504, are provided with notice and overview of their due process rights. If legal counsel is required, as determined by LCPS, then LCPS-designated legal counsel will be used and the Charter School will cooperate as needed.

30.5 Medicaid Billing. The Charter School will cooperate in submitting billing documentation to the LCPS Third Party Billing Office for all special education students who are Medicaid eligible in accordance with LCPS billing procedures. LCPS will retain the reimbursement. The Charter School will be required to maintain all Medicaid paperwork in the student's cumulative folder for six (6) years. LCPS will ensure that Medicaid providers are credentialed in accordance with state regulations.

30.6 Special Education Compliance. The Charter School shall not discriminate against students with disabilities.

30.7 ELL Services. LCPS will be responsible for and provide needed ELL services.

30.8 Consultation. LCPS and the Charter School will cooperate and work together to insure that staff assigned by LCPS to perform SPED and ELL services to do so in manner that is
high quality while being supportive of the Charter School's curriculum and model to the extent possible.

31.0 **Transportation Plan.** MCCS shall bear the exclusive responsibility and costs for the lawful transportation of enrolled students to and from; and during school, for example field trips—all in accordance the applicable laws and regulations of the Commonwealth of Virginia. MCCS will hold LCPS harmless for the transportation of MCCS students.

31.1 **Funding Retention.** Costs for student transportation will not be retained by LCPS from the per pupil assessment installments remitted to the Charter School under this contract.

31.2 **Inclement Weather.** The Charter School will follow LCPS' inclement weather closures or delays.

33.2 **Definition.** For the purposes of this section, "drug-free workplace" means a site for the performance of work done in connection with this Agreement by the Charter School where its employees are prohibited from engaging in the unlawful manufacture, sale, distribution, dispensation, possession or use of any controlled substance or marijuana during the performance of the Agreement.

Executive Summary I

Ia. Executive Summary:

The Middleburg Community Charter School will continue to prepare students for success in further education by enabling students to recognize and experience a broader range of choices for future endeavors by preparing them to be responsible and empowered in their own education. This will lead to a more creative, motivated, and passionate student body. In the drastically changing global economy, it is never too early to innovate and design a better, more creative way of teaching our kids to think and self-educate. These are lessons that will lead to a lifetime of learning and retention of ideas. Additionally, STEAM and project based learning will further enhance the students’ learning experiences.

The target student population is the Kindergarten through Grade 5 aged student population of Middleburg and surrounding communities with the exploration of adding grades 6-8. Currently, the school welcomes applications from any K-5 student in Loudoun County and requires parental involvement as a condition of enrollment.

In order to promote community understanding and involvement, MCCS continues to partner with various for-profit and non-profit organizations to bring the flavor, the experiences, and the culture of Loudoun County into our curriculum and our school community. Exposure to the economic system in Loudoun County both currently and historically will give the children a deeper understanding of where they live, as well as expose them to ideas and careers that may ignite curiosity and passion within them.

The school continues to distinguish itself from other LCPS schools with an interdisciplinary academic program, extended calendar year (August to June), full day kindergarten, multiage classes (for all six grades), and by incorporating STEAM into the Leonardo da Vinci influences all we do at the Middleburg Community Charter School. Our goal is innovative programming that promotes our vision and mission.

Ib. Curricular Model:

MCCS implements an interdisciplinary theme based curricula influenced by the works of Leonardo da Vinci as the school’s instructional delivery through a project based approach while integrating the arts into STEM lessons aka STEAM. MCCS will continue to give children a solid foundation in reading, writing, math, social studies, science, music, art, physical education and dance so as not to foreclose any future careers or interests. Our interdisciplinary approach will weave these core subjects together to give further meaning and reference to each subject and the role that each discipline plays in our world. The school will continue to build its interdisciplinary thematic curriculum around the SOQ’s and SOL’s that are mandated by Virginia and provided by Loudoun County in all of its public schools. Through participation in the Harvard Institute Project Zero professional development, teachers will bring together “insights from the natural and social sciences, the arts, engineering and the humanities to produce explanations, create products, ask new questions, and find solutions to contemporary issues. The teachers will help their students see the purpose of education as nurturing individual human potential and promoting societal growth and well-being.” (PZ Interdisciplinary & Global Studies). (The retired principal, Ms. Miriam Hughey-Guy, will continue to act as an advisor and mentor with Middleburg Community Charter School.)
II. Mission Statement:
Utilizing a Leonardo da Vinci-inspired curriculum, Middleburg Community Charter School (MCCS) inspires students to become confident, caring problem solvers aware of their connection to their family, community, country and the world. A dedicated staff and small school environment provides children with the attention and resources to become curious and confident learners utilizing essential 21st century skills. The communication, collaboration, and critical thinking skills they learn equip them to become productive global citizens.

MCCS Vision
Build a creative, committed community of learners equipped to better understand and thrive in the 21st century world. Inspired by the life and work of Leonardo da Vinci, MCCS will tap into students’ inherent curiosity through a hands-on, innovative education.

IIa. Student Academic Proficiency-

MCCS students will meet or exceed the following pass rate requirements to maintain “Fully Accredited” status from the Virginia Department of Education:

- Reading 75
- Math 70
- Social Science 70
- Science 70

IIb. Student Academic Growth-

Eighty percent (80%) of all students will make proficiency or growth targets as evidenced by performance on the PowerSchool Student Growth Assessment.

IIc. Achievement gaps in Proficiency-

Achievement gaps will be identified in both proficiency and growth between the major student subgroups based on gender, race, poverty status, special education status, English language learner status, and gifted status:

All major student subgroups will reach proficiency or decrease the achievement gap by ten (10) percent each year until proficiency is met or the gap is eliminated as evidenced by the Standards of Learning assessment.
IId. Attendance-

The Average Daily Attendance for Middleburg Community Charter School will be 94% or greater.

IIe. Recurrent Annual Enrollment:

Based upon the past 2 years’ annual enrollment, the estimated recurrent annual enrollment for the next 3-5 years will be 90% or greater.

IIf. Financial performance and sustainability:

The fund balance will remain between 2% and 6% of the budget operating income. Reserves contributed by donations and funds in a capital equipment account may exceed the 6% limit.

IIg. Performance and stewardship of the management committee

Annual financial audits will result in MCCS receiving an “unmodified opinion.”

IIh. Other additional rigorous, valid and reliable indicators proposed by the Charter School to augment external evaluations of its performance:

Based on an annual “Similar Schools Report” provided by the LCPS Research Office, MCCS will maintain SOL pass rates that fall within five percentage points of the mean pass rate for similar schools in English, Math, Social Science, and Science.

All students will demonstrate at least one year of academic growth as evidenced by PALS K-1 and DRA 2-5.

School progress and satisfaction will be measured by an annual Board-directed survey resulting in 85% or greater satisfaction rating.

Average annual grants and community contributions for the next three-five years will make up 5% of the operating budget.

III. Student performance data by all student groups shall be disaggregated.

All students will demonstrate at least one year’s growth as evidenced in PowerSchool in 2017-18, while transitioning into the use of Measure of Academic Progress (M.A.P.), PALS K-1, DRA 2-5 and the Brigance (Reading and Math) over 3-5 years.
III. Evidence of Support:

The school focuses on our rural community, and has support from the Town of Middleburg, local businesses and farms and several educational institutions of Western Loudoun. The Middleburg community is essential to the success of our Charter School. The Mayor and Town Council have been involved and have provided support. We all have a common goal to keep our school open and to continue to provide excellent education for our community. The 2014-15 and 2015-16 annual reports include the results of the school surveys. There have been several appearances of families at the School Board meetings expressing their satisfaction of MCCS. Support spreads throughout Western Loudoun and continues to grow.

IV. Statement of Need:

Middleburg Community Charter School (MCCS) meets Loudoun County and Middleburg’s need for a community based elementary school that develops the whole child, promotes diversity and levels economic barriers through innovative educational approaches that have proven successful in other states and school systems. Since the closure of MES and the opening of MCCS, enrollment has increased from 59 to 131 students as of January 2107.

The current demographic profile of the student body is 7% Asian, 6% Black, 8% Hispanic, 74% White, and 5% Multiracial. The Middleburg Charter Community School plans to continue to educate Windy Hill Community’s children and continue the relationship with the Windy Hill Foundation.

V. Educational Program:

1. A description of the academic program is aligned with the Standards of Learning.

The instructional model for Middleburg Community Charter School begins with teachers that are highly qualified in their current teaching assignments. At least one teacher has graduate level degree and advanced teaching certification in reading and language arts to assist teachers with planning and developing units in the language arts program for all levels with special attention to reading in the K-2 classes. One teacher certified in ESOL will teach and be responsible for the curriculum and instruction for the English language learners with emphasis on ensuring a rigorous and engaging program within the classrooms as well as through pull-out instructional support as needed. MCCS has on staff a certified and experienced special education teacher to provide direct services in collaboration with the classroom teachers to students with IEPs. All teachers participate in gifted education workshops to address the needs of the identified gifted student. Additionally, through a VDOE grant, the school hired a full time STEAM coordinator to enhance and expand the instructional program through teacher training and modeling using the interdisciplinary curriculum through project based learning influenced by the works of Leonardo da Vinci. These staff members will serve as mentors to colleagues who aspire to become highly proficient in specific subject areas.

The music program is taught by the Community School of the Piedmont, a community non-profit that has experience in teaching elementary school students in vocal music and in a variety of instruments.
2. MCCS’ Instructional Design

To gain the benefits of combined grade classes, children will be grouped in multi-age classes of KG through 1, 2 through 3, and 4 through 5. (Exploration is underway to include 6 through 8 grades.) Use of the combined grade, or multi-age, class brings tangible benefits to the students not available to those in a single grade class. In a multi-age classroom, children gain skills in socializing across ages and peer groups. Younger children benefit from a more stable and secure learning environment since their teachers don’t change year-to-year. They are able to see what lies ahead and have a behavior model to observe as the older students work at a more advanced level. The students who are able to progress faster in specific skills or areas can be integrated into more advanced lessons.

3. Enrollment per grade level for the term of the charter contract.

MCCS’ minimum enrollment per grade will be 20 students with a maximum of 24 per grade with a total school enrollment of 120-144 during the term of the contract.

4. Plans for identifying and successfully serving: a) students with disabilities; b) English Learners (ELs); students who lag behind academically; and d) gifted students, including compliance with applicable laws and regulations.

MCCS and LCPS will work together to deliver a quality instructional program for students with disabilities. MCCS staff will comply with applicable laws and regulations.

Students with Disabilities
MCCS will provide a continuum of services for students with disabilities found eligible to receive special education services. Identifying a student as eligible for special education services is a carefully managed process guided by State and Federal regulations, as well as LCPS Special Education policies and procedures. Evaluations required to make this determination are completed only with parent/guardian permission.

School-based student study committees review available information regarding students who are experiencing problems that adversely affect their education performance. Students suspected of having a disability are referred for evaluation. An eligibility committee at the student’s school reviews assessment data from school-based evaluations as well as any information provided by parents to determine if the student has a disability which requires special education services. When a student is found eligible for special education services, an Individualized Education Program (IEP) is developed with the participation of the school staff, the parents/guardians and the student (when appropriate). An IEP is a statement of the special education and related services that will be provided to the student, which is updated at least annually throughout a student’s eligibility for special education.

English Language Learners
MCCS believes that all English learners achieve their fullest linguistic, academic, cognitive and social potential while building upon their diverse language and cultural backgrounds. The MCCS ESOL teacher will collaborate with LCPS staff to support and monitor instruction to accelerate student progress.
The English Language Proficiency Standards are aligned with the academic standards of the classrooms with ELL students. The instruction ensures that English learners attain English proficiency in order to develop high levels of academic achievement as measured by local/statewide assessments and WIDA English Language Proficiency Standards in listening, speaking, reading, and writing. The instructional strategies are research-based using a variety of methods and best practices that integrate the language and content.

**Academically Challenged Students**
The school has designed extended learning opportunities through Intersessions, Saturday Academies, and After School Intervention activities as targeted learning opportunities for improving academic performance for all student groups, especially the ones referenced above. These extended learning opportunities provide remediation, reinforcement, and enrichment activities for all students. These timely and targeted learning opportunities will help students avoid accumulated learning loss, which is especially important for subjects such as math that require students to master core concepts before they can move on to new materials. Intersessions, Saturday Academies, After School Interventions, and shorter summer breaks are beneficial for students that have few educational opportunities outside of school.

**Gifted Students**
MCCS which complies with Virginia Regulations Governing Educational Services for Gifted Students based on the following concepts:

- Giftedness is developmental; it is potential which must be nourished;
- Gifted students share some characteristics with all other children; and
- There is variability among the gifted.

Currently, MCCS gifted services eligibility process identifies students in the following areas:

- Specific Academic Aptitude: students with specific aptitudes in the academic areas of mathematics, science, English, social studies
- By the end of the 2018 school year: Students with specific aptitudes in visual art and/or instrumental or vocal music areas will be referred for consideration.

5. Co-curricular or extracurricular programs

Middleburg Community Charter School follows a modified year round calendar and partners with the Middleburg Community Center to implement after-care. The year-round school calendar provides two benefits compared to the nine-month calendar. First, students suffer less loss of knowledge and atrophy of skills with a summer break only half the length of the current break. Second, the two two-week intersessions between grading periods serve as opportunities to offer short courses tailored to the needs of the student body. When funds are available, MCCS offers a Summer Intersession and Saturday Academy.

6. Student discipline policies, including discipline policies for special education students
MCCS' student discipline policies, including discipline policies for special education students will follow the LCPS policies and procedures. Additionally, incident reports will be documented and submitted as required.

7. Opportunities and expectations for parental involvement

All parents are welcomed and invited to participate in their child's education. As part of the registration process, parents agree to commit to at least 6 hours of volunteer services during each semester. Involvement activities included, but not limited to, PTO activities, parent/teacher conferences, classroom activities, field trips, SMT members, etc.

8. LCPS will provide special education/504 services, but the MCCS will remain responsible for legal compliance.

**Logistical Components VI-VII**

**VI. Enrollment Process:**

The admission process for Middleburg Community Charter School will be consistent with federal Charter School Guidelines, LCPS and applicable state laws, regulations and constitutions regarding discrimination, including prohibition of discrimination on the basis of disability, race, creed, color, gender, national origin, religion, ancestry, or the need for exceptional education services.

MCCS recommends continuing the lottery process which has worked well for the first two years and is summarized here:

- All students enrolled for the 2016-17 school year who wish to return are grandfathered into MCCS upon opening in August 2017.
- Of the new seats available for August 2017, up to half can be reserved for students residing in the former Middleburg Elementary School's attendance zone. In addition to this priority group, siblings of returning students who wish to attend will have priority over students who have no siblings in the student body.
- Numbers are assigned to each applicant and then numbered balls corresponding to the applicants in each priority group at a particular grade level are placed in a hopper. The numbers, separated by grade level, will be placed in a hopper. The numbers for each priority group-grade level are drawn during a public session which is video-taped session and observe by a representative from an accounting firm that acts as a neutral observer.

MCCS is founded on the belief that parent/guardian/family support and involvement in their children's education is essential to students' academic success. Therefore, parents/guardians will, as part of the admissions contract, commit to six hours of volunteer service to the school per quarter. Understanding that working parents will find it difficult to serve these hours during the school day, MCCS will offer numerous opportunities for families to fulfill the contractual requirements.
Admission timeline:

- January – Registration Opens - applications online and at the school
- April – If the present enrollment plus the applications submitted is less than maximum capacity of the school the parents are notified of the student’s acceptance at MCCS.

If this total exceeds the maximum capacity, then the lottery is implemented with the applications received as of March 31.

Transfers:
Students that desire to transfer from LCPS to MCCS will follow the county guidelines and the principal at their present school will initiate the application and it will be submitted to LCPS and the principal at MCCS for submission to the Admissions committee. The Admissions committee will follow the guidelines noted above and notify all parties as to the status of the request within three business days.

Those students who want to transfer from MCCS to LCPS will follow the county guidelines and complete the process through MCCS principal.

VII. Transportation, Food Service, and Operational and Ancillary Services:

MCCS provides transportation (private) to and from school to those who need it at identified hub locations throughout the county. Transportation for field trips are provided by PTO funds and other grants/donations.

LCPS will be responsible for transporting IEP eligible students with disabilities who require special education transportation in order to attend MCCS.

Food Services
MCCS will use a local provider for food services for students and staff that meet or exceed the state and federal guidelines.

Business Components VIII-XII

VIII. Economic Soundness:

1. MCCS’ financial plan, including financial controls and audit requirements.

This section presents a financial plan based on projected budgets for the next five years, FY18-FY22, of MCCS operations. The operations, staffing, and budget of the current year, FY17, are taken as the baseline to project a budget for each of the five years. After discussing the projected budgets, this section ends with a discussion of the how the Charter Board will implement financial administration and reporting. Projected Budgets To project budgets for the five-year period FY18 to FY22, we started with the current budget based on FY17 staffing and operations.
Anticipated changes in operations, staffing, income, and expenditures in future years are incorporated into the budget projections in successive years as discussed below. The five-year budget and five-year staffing plan referred to in the discussion are attached. Since the starting point for future year budgets is the FY17 budget, we assume constant FY17 dollars in the future budgets. That means we have incorporated no inflation in either income (per pupil funding) or expenses. To the extent LCPS per student funding matches the average rise in school costs, this assumption allows for a more transparent comparison of the budget over future years. When deciding future staffing, expenses, and income we strove to make conservative choices to ensure a significant positive net balance in income minus expenses each year. This will allow MCCS to build and maintain prudent cash reserves and provide the School Mission Team flexibility in implementing the educational program as well as maintaining and investing in the facility in future years.

**Financial Administration and Reporting**

The Board of Directors of the charter school will continue to be responsible for the financial operations of the charter school. The financial duties include overseeing the distribution of MCCS funds, preparing an annual budget, ensuring adherence to the budget, preparing monthly financial reports, preparing the IRS form 990, and assisting in an annual audit by an independent entity chosen by LCPS.

Audits for FY14 and FY15 have been completed and results provided to LCPS. Working with the auditor, the BOD has taken steps recommended by the auditor to improve financial controls each year. In addition to the independent audit, the BOD retains the service of a CPA to prepare the IRS Form 990 annually and to review the payroll finances and IRS reports at the close of each calendar year.

2. Five-year budgets with clearly stated assumptions.

**FY18 Budget** –In the first year of the five-year projection, there are three notable changes from the current FY17 budget. First, there will be an enrollment increase to 144 with no change in staffing as classes currently below 24 students will be filled next year. Second, per the agreement between MCCS and the School Board, a higher indirect rate of 9.4% will be in effect in FY18 compared to the current 5.8% rate. (MCCS is asking in the renewal contract that a fixed indirect rate be negotiated). The third change expected next year is that MCCS will provide ELL services to its students as opposed to the current arrangement whereby LCPS provides ELL services in exchange for a deduction from the per pupil funding of $298 per pupil. In its place, MCCS intends to provide a stipend to the MCCS teacher providing these services estimated to be $7500.

The remaining income and expenses for FY18 are assumed to be approximately the same as in FY17 with one exception. Instead of the approximately $75,000 in yearly donations from the Western Loudoun County Community Schools Foundation (WLCCSF) and private donors that MCCS has received in its first three years, we assume only $50,000 in FY18 and 2 subsequent years. This is a conservative assumption that also reduces pressure on the WLCCSF which plans to increase its efforts to build the endowment intended to support MCCS. This endowment growth is planned to coincide with the renewal of the MCCS charter which will provide large donors evidence of a successful track record and confidence in the long term viability of MCCS. In the attached budget summary, the income and expenses for each fiscal year are listed in one column. Next to that is a column titled “Remarks”. For FY18, the remarks column provides
additional information for some of income and expense item. For successive years, the remarks column highlights when there has been a change to an income or expense item from the prior year.

**FY19 Budget** - One major change is anticipated in the budget for FY19. FY18 is the last year of the three-year Year Round School (YRS) grant that MCCS received from VA DOE. By funding a robust intersession program, this grant supports a major educational benefit of our modified year round calendar. This grant allows MCCS to employ licensed teachers and provide student transportation for intersessions, and one full time position, a STEAM coordinator. We anticipate that the SMT will desire to maintain the STEAM coordinator position as it is a valuable component of the curriculum at MCCS. To accommodate the loss of the grant, MCCS will assume the expense of the STEAM coordinator and will reduce the funding for TA’s by one FTE to help absorb this expense. MCCS will seek grant funding to replace the loss of the YRS grant and maintain the current level of intersession support but to be consistent with our intention of budgeting conservatively, we do not assume that new grant funding will be available to replace the YRS grant funds. Finally, since the YRS grant is a matching grant that requires a 20% funding match from MCCS, it should be noted that the major impact of the loss of the YRS grant is not a loss of funds to our core SOQ required curriculum but to program enhancements in terms of a robust intersession and the STEAM coordinator. MCCS will strive diligently to obtain funding to continue these valuable enhancements.

**FY20-FY22 Budgets** - There is one significant change for the FY20 budget over the FY19 budget. In FY19, MCCS completes payment of the arrearages for Technology and Support Services invoices incurred during the first two years of the MCCS contract. This reduces expenses in FY20 and subsequent years by about $33,000 per year. We do not assume theses savings are directed to other expenses such as replacing the TA FTE reduced in FY19. Instead, the SMT will make the decisions in conjunction with the MCCS BOD on how to manage the budget in the out years.

3. Cash flow projections with clearly stated assumptions.

The five-year budget chart includes a row at the bottom showing the fund balance projected for FY18 through FY22. This figure is the sum of the estimated fund balance from FY17 with projected net income each successive year. The projected budgets for FY18 through FY22 show that MCCS has a financially viable future. We expect that in the future, a portion of the fund balance above the level needed for prudent operational cash reserve can be allocated to a fund to support the long-term needs of the MCCS facility.

4. Evidence of anticipated fundraising contributions and grant applications.

MCCS has demonstrated the capacity to attract significant donations and grant funds in its first three years. Given our conservative financial assumptions, we expect that by continuing the success in obtaining grant funding and donations, MCCS will be able to provide enhancements to its core program in the future that meet or exceed those of our first three years. In future years, MCCS intends to develop donations from the immediate school community as well as corporate supporters to support operational funding. At the same time, we intend to reduce our reliance on
donations from WLCCSF to allow that fund to focus on building an endowment to support the long-term viability of MCCS facilities. Finally, we expect revenues from PTO fund raising events and donations to continue at the robust levels experienced in the first three years of MCCS. Based on experience, a conservative projection for these revenues is $20,000 per year. These funds appear indirectly in the budget in that PTO funding covers 100% of field trip costs as well as educational assemblies at MCCS throughout the year.

5. A sound facilities plan, including backup or contingency plans, if appropriate.

The facility for the Middleburg Community Charter School is the former Middleburg Elementary School building located at 101 North Madison Street, Middleburg, Virginia 20117. This building has been used as an elementary school since 1911 and is the property of the Loudoun County School Board. The school will meet all federal, state and Loudoun County guidelines for occupancy, health and safety and capacity. There are no current plans for alteration or renovations to the building.

Facilities management will continue to be overseen by LCPS Support Services under a contract with MCCS. The facility will be maintained in a manner ensuring compliance with the Virginia Statewide Building Code (13 VAC 5-63) so that the following factors are satisfied:

- The physical plant will be accessible, barrier free, safe and clean;
- Provide for the proper outdoor display of flags of the United States and the Commonwealth of Virginia;
- Provide suitable space for classrooms, administrative staff, pupil personnel services, library and media services, and for the needs and safety of physical education;
- Provide adequate, safe, and properly-equipped laboratories to meet the needs of instruction in the sciences, technology and fine arts;
- Provide facilities for the adequate and safe administration and storage of student medications.

MCCS will maintain records of regular safety, health and fire inspections that have been conducted and certified by local health and fire departments. The frequency of inspections will be the same as for other LCPS schools and will be conducted in consultation with the local health and fire departments.

Unplanned, semi-permanent displacement due to partial or complete destruction of the building will be covered in the MCCS Emergency Plan developed by the Facilities Committee. The Disaster Recovery portion of the Emergency Plan will define the immediate post disaster actions, including the relocation of classes to alternate locations. The Facilities Committee will expand its role to include identifying alternative sites should the existing facility be destroyed or is not accessible for an extended period. Additionally, the Facilities Committee will secure documented assurances from managers, agents, or owners that those facilities will be available if needed. Assurances will be updated annually.

6. Past audits of the Charter School’s financial statements, pupil attendance accounting practices, pupil records maintenance and internal and administrative and fiscal controls, operations and practices are without negative or cautionary comment.
The audits for FY15 and FY16 were performed by an auditor contracted by LCPS. The results of the audits are posted on the LCPS financial services web site. The financial statements resulting from the audit are present in paragraph 8 below.

7. The federal indirect cost rate as stated in the existing contract will be used.

As agreed to between the School Board and MCCS, the federal indirect rate delayed by one year will be used. Since the indirect is not published until after the fiscal year begins, delaying its application by one year allows MCCS to use the prior year’s indirect rate which is available prior to budget preparation for the subsequent fiscal year.

8. Financials statement for the years FY15 and FY16 prepared as part of the audits are presented here. Revenues and expenditures are categorized per state reporting guidelines.

A projected financial statement for FY17 is presented also.

IX. Term and Contract:

IXa. Term
MCCS proposes a five-year renewal term.

IXb. Contract
MCCS will reach a tentative agreement on all terms and conditions, whether or not itemized in this checklist, for submission to the Charter School Committee for recommendation to the School Board.

X. Management and Operation:

MCCS will operate in accordance with the renewal application, this Charter Agreement and all applicable laws and regulations including, but not limited to, Article 1.2 of Title 22.1 of the Code of Virginia and all School Board Policies and applicable regulations, as amended from time-to-time, unless waived by the School Board or State Board of Education and will comply with the following:

1. MCCS School Leadership and Management.

The Middleburg Community Charter School expects and encourages the active engagement of all participants in the school, including parents of students, the principal, full and part-time teachers, staff, volunteers, and leaders in the community. We celebrate a spirit of cooperation and communication among all the groups involved in the formal decision-making process, which, whenever possible, based on a broad consensus. This balance of active engagement, consensual agreement and clearly defined responsibilities is reflected in the overall governing structure.

The organizational structure of MCCS is divided into two essential components. First, the MCCS Board of Directors (hereafter “the Board of Directors”) is the legal entity that will enter into a
charter agreement with the Loudoun County School Board (LCSB), establish and operate MCCS. The Board of Directors constitutes the link between LCSB and the School Mission Team, and is responsible for negotiating and assuring compliance with the Charter Agreement (and any proposed amendments), ensuring adherence to applicable laws and regulations, making policy decisions, and monitoring the operational decisions of the School Mission Team. Second, the School Mission Team is the Management Committee designated in the Virginia code that is responsible for administering and managing the charter school.

Both the Board of Directors and the School Mission Team will provide annual reports open for public inspection, as well as follow accountability measures established by Loudoun County School Board.

Board of Directors

The Board of Directors is responsible for overseeing, upholding, maintaining, and sustaining the mission and vision of the MCCS. It will follow the recommendations of the various standing committees and task forces as fully as possible to determine the best course of action for MCCS at various junctures. The Board of Directors also will review the governing principles and by-laws of the MCCS annually and it will seek advice from an Advisory Board composed of consultants from the community.

Role and Responsibilities

The paramount responsibility of the Board of Directors is to ensure the principal, parents, teachers, and staffs are upholding the mission, curriculum, and purpose of MCCS. Specific responsibilities of the Board of Directors include:

- enter into a Charter Agreement with LCSB
- negotiate charter amendments, waivers, and annual budgets
- negotiate terms and use of facilities
- negotiate independent contracts
- approve annual report and audit for submission to LCPS

Constitution and Election

The Board of Directors will consist of a total of 7 members: five elected members, and two nonvoting ex officio positions. The elected members will consist of a Chair (President), two Standing Committee Chairs and two at-large positions. The two non-voting positions will be held by the current principal of MCCS and the town council representative.

The founding members of MCCS Development Team and the Working Group establishing the public charter school elected the first Board of Directors. Of the five elected positions, three served a two-year term and two served a one-year term initially. Thereafter, elected members will serve two-year terms in staggered classes and the existing Board of Directors will elect all successive Board members.
The Board of Directors shall choose one among its own at its annual meeting to be held in June as the Chair the group. The Board of Directors shall meet once a month, in the school building. There is a limit of two consecutive terms during which a Board member may serve. Following a one-year break from service, former Board members are again eligible to be candidates for re-election to the Board of Directors.

The Board of Directors will have ultimate responsibility for fulfilling the school’s mission. The Board will provide oversight of the school and accountability to the general public. The Board will hire the Principal and rely on the School Mission Team to run the operations of the school.

Typical activities and duties assumed by the Board of Directors include:

- Assuming fiscal and legal accountability through rigorous financial planning and strong financial controls
- Hiring and evaluation of the Principal
- In conjunction with the SMT, providing policy direction and guidance to the Principal
- Publicizing and attending scheduled meetings
- Participating, as appropriate, on interview teams for staff position applicants.
- Understanding and articulating the school’s mission
- Coordinating and facilitating communication between committees where needed
- Addressing specific member concerns
- Ensuring broad access to information about the school
- Ensuring school decisions are reached through a democratic process and that dissenting voices are heard
- Keeping up with developments (internal, external, and financial) affecting the school
- Providing meeting minutes to members of the Charter School Committee and the staff liaison
- Publishing meeting proceedings according to the Virginia Freedom of Information Act policies of LCPS
- Periodically reviewing the tasks of Standing Committees to ensure the needs of the school are met
- Working with the school’s Parent/Teacher Organization to build involvement of community members in the MCCS
- Forming liaisons with community organizations and other schools within the region
- Nominate Advisory Board Members

The Board may also delegate tasks where appropriate, thus building community involvement and managing their own work load.

**Qualifications for Board of Directors**

Members of the Board of Directors must be committed to public education and to the proposition that every child needs and deserves excellent schools. They should be accustomed to working
effectively in a team environment, and should possess experience or expertise in a field or discipline related to creating and operating a school or business, including:

- Education or training in academic or corporate environments
- Community organizing
- Special education
- General business, such as project management, hiring, and marketing
- Finance/accounting
- Technical fields such as computers, law, building/contracting, or mechanical engineering
- Knowledge of and involvement in our particular communities
- Social services, such as social work and clinical psychology

2. School Mission (Management) Team

The SMT is responsible for providing a quality education in accordance with MCCS's vision and mission that comply with applicable policies, laws, and regulations. It is important to the cooperative spirit of the school that the principal, teachers, staff, and parents conceive of themselves as a team that keeps the education of the students at the center of all deliberations.

The SMT members are as follows:
- Principal
- PTO President/Representative
- Staff Representative
- Teacher Representatives
- Community Representative
- Student Representative
- Board of Directors Representative

Standing Committees
Standing Committees are composed of families enrolled in the MCCS, teachers, staff, and members of the general public. Each Standing Committee is chaired by an elected member of the Board of Directors. Standing Committees make recommendations to the Board of Directors. They develop strategic objectives, oversee tactics that implement these strategic goals, and assign task forces to prepare or complete specific tasks. The following three Standing Committees will be created:

- Finance Committee
- Communications Committee
- Transportation Committee
Roles and Responsibilities of Standing Committees

The Standing Committees will play a major role in the school's governance. These committees will be the primary authority for all matters relating to their respective areas and will serve as the primary means of communication and input from members of the community, staff, teachers, parents, and members of the LCPS Board and School Administration. The Board of Directors must consider the specific scope of responsibilities of the respective Standing Committees prior to recommendation and consideration on matters within the purview of each Committee.

Standing Committee members consist of an elected Board of Directors member (Chair), other Board of Directors members (if appropriate), and volunteers committing themselves to serve for the duration of one year. The Chair will call the first meeting of each respective Standing Committee at the beginning of the school year. Committees may elect a Co-Chair if appropriate. The Chair(s) and all volunteer members for each Standing Committee are expected to attend all meetings.

The Board of Directors will periodically review the tasks of the Standing Committees and may propose new or revised Standing Committees if needed.

Parent Teacher Organization (PTO)
The PTO has an essential role in manifesting the mission and goals of MCCS. The PTO's role is supportive, providing a venue for parents and teachers to discuss and express community desires for school. The PTO will have input but not decision making ability regarding the direction of MCCS, assist w/designing and maintaining the school web site, funding special projects, aid in securing volunteers within classrooms, provide teacher grants, funds for activities, assist with funding foreign language instruction, coordinate guest speakers, and organize extracurricular events for the school.

Other
All complaints, grievances, and other concerns addressed in MCCS policy or procedure will be handled through the same channels as any other LCPS school; i.e., any process normally handled by and through the principal in LCPS will be handled by the Principal of MCCS. With regard to parent disputes, the first line of communication will be to the teacher, the next line will be the principal, the Chair of the Board of Directors, and finally the Superintendent. Employee disputes will be directed to the principal, and finally to LCPS Human Resources. Unresolved disputes will be referred the Loudoun County School Board.

XI. Employment Terms and Conditions:

1. At the discretion of the local school board, charter school personnel may be employees of the local school board, or boards, granting the charter. Any personnel not employed by the local school board shall remain subject to the provisions of Sections 22.1-296.1, 22.1-296.2, and 22.1-296.4.
As stated in the Code of Virginia for charter schools, "public charter school personnel shall be employees of the local school board or boards granting the charter." In accordance with federal laws, the laws of the Commonwealth of Virginia and the policies of the School Board of Loudoun County, MCCS will not discriminate on the basis of sex, race, color, age, religion, disabilities or national origin in the provision of employment and services. MCCS will not house an HR department. The school will take full advantage of LCPS Human Resources when recommending the hiring of any instructional staff. After selection of appropriate candidates by MCCS, LCPS Human Resources and Talent Development will hire and place the employee on the salary scale based on LCPS policies and procedures. LCPS will conduct CPS Central Registry checks, criminal background fingerprinting, and TB screening/testing. MCCS employees will follow the same basic policies and bylaws established by LCSB.

2. MCCS Board of Directors will perform the annual evaluation of the principal utilizing a personnel evaluation procedure modified from that utilized by LCPS and/or VDOE.

MCCS will provide training and education programs to all eligible employees on an equal basis based on the needs of the school.

4. & 5. Health and Safety Requirements - The Middleburg Community Charter School will follow the same procedures for hiring all staff as the LCPS. Each staff member must prove eligibility for employment and provide all documentation of their qualifications for the position they wish to fill. All teachers must be eligible, as deemed by LCPS, for a valid teacher's license prior to the beginning of the school term.

Every person employed must file an official health certificate with the designated person in the LCPS Administration Offices or complete a satisfactory physical examination, depending on the requirements of the position. This must be done prior to beginning duties unless an extension is given for extenuating circumstances.

The school facilities will be inspected as required and will confirm to state and federal regulations. An OSHA bulletin board in the staff room will prominently display relevant current materials and notices.

6. Staffing Chart is included with the attached budget chart.

7. Substitutes costs will be borne by the Charter School even if needed to replace staff needed for special education/504 or ELL meetings.

8. All substitutes will be obtained through LCPS Sub Central for all positions at the expense of the Charter School unless LCPS mandated Professional Development for permanent staff member when a substitute is needed.
Recruitment and Selection of Teachers and Staff

The MCCS principal, relevant staff members and designated Board members will conduct interviews. All teachers and administrators will be certified in the State of Virginia in the area of their assignments. Before and during the interviews, the applicants will be informed of details that make the school unique.
