Loudoun County Public Schools Parent/Student Agreement for Permission to Carry an Inhaler

(Physician must also sign that student should carry an inhaler at school on the Asthmas Action Plan)

Parent:

- I give my consent for my child to carry and self-administer his/her inhaler.
- I understand that the school board or its employees cannot be held responsible for negative outcomes resulting from self-administration of the inhaled asthma medication.
- This permission to possess and self-administer asthma medication may be revoked by the principal if it is determined that your child is not safely and effectively self-administering the medication.
- A new Asthma Action Plan signed by the physician and Parent/Student Agreement for Permission to Carry an Inhaler must be submitted each school year.

Parent/Guardian's Signature Required	Date

Student:

- I have demonstrated the correct use of the inhaler to the school nurse/health clinic specialist.
- I agree never to share my inhaler with another person or use it in an unsafe manner.
- I agree that if there is no improvement after self-administering the medication, I will report
 to the school nurse/health clinic specialist or another appropriate adult if the
 nurse/health clinic specialist is not available or present.

Loudoun County Public Schools Authorization for Medication Administration Parent Information About Medication Procedures

- 1. Medications should be taken at home whenever possible so that the student does not lose valuable classroom
- 2. The first dose of any NEW medication should be administered at home.
- 3. If it is absolutely necessary for the student to take medication at school, an "Authorization for Medication Administration" form must be received for each medication and must be submitted to the Health Office staff with the medication to be administered at school. Use the appropriate form for asthma, allergy, seizure and diabetes medications. Medication will not be accepted without the appropriate form.
- Parents must provide written instructions from the healthcare provider for prescription medication to be administered by LCPS staff. The "Authorization for Medication Administration" form is preferred, but the healthcare provider may use office stationary or a prescription pad with the following information:
 - Student's name and date of birth
 - Name and purpose of medication
 - Dosage, time & route of administration
- Duration of medication order/effective dates
- Possible side effects/actions to take if these occur
- Healthcare provider's signature/date/NPI #
- 5. Medications must be brought to the Health Office by a parent/quardian (LCPS policy 8420) per Virginia Code 22.1-274. Students with diabetes, asthma, or life-threatening allergies may carry the following medications (insulin, glucagon, inhalers, epinephrine auto-injectors) throughout the school day with the written consent of the physician, school nurse and parent/quardian as indicated on the "Physician Order/Action Plan." Otherwise, students are not permitted to transport medications to and from school or carry any medication while in school.
- 6. Medication Containers:
 - Prescription medications- must be in the original pharmacy bottle with proper label containing:
 - Student's name

- Dose / amount to be administered
- Name of medication
- Healthcare provider's name

- Time to be given
- Non-prescription medications (OTC- over-the-counter) must be in the original packaging and include dosage instructions.
- 7. Prescription information on bottle label must match the healthcare provider's information on the "Authorization for Medication Administration" form. Ask the pharmacy to provide a properly labeled bottle for school.
- 8. Staff will not cut/break pills. Parents/Guardians should cut/break pills or request the pharmacy to cut pills into the correct dose.
- 9. Medication must be given in its original form unless written directions from the healthcare provider states otherwise. For example- open capsule or crush pill and mix with applesauce/yogurt, etc.
- 10. Medications will be given no more than 30 minutes before or after the prescribed time.
- 11. Non-prescription medication will only be administered according to directions on the bottle or box. If a higher dosage is required, the "Authorization for Medication Administration" form must be completed and signed by the healthcare provider.
- 12. Medication must be stored and administered in the health office unless the criteria for self-carry are met.
- 13. A new "Authorization for Medication Administration" form is required at the start of the school year and each time there is a change in the dosage or time at which a medication is to be taken.
- 14. Parents/Guardians should not bring in more than a 60-day supply of prescription medicine at a time.
- 15. Any herbal or natural alternative medications (botanicals, oils, dietary or nutritional supplements, homeopathic medicine, phytomedicinals, vitamins, and minerals) require an "Authorization for Medication Administration" form signed by the healthcare provider and parent/guardian. This authorization does not permit the possession or use of marijuana or unregulated CBD or THC-A oil.
- 16. Unused medication MUST be picked up by a parent/quardian on the last day of school or it will be destroyed.
