Dear parents and/or guardians of LCPS Students,

We are partnering with BrightBytes, an educational research and analytics company, to learn more about our students’ school and home technology use for learning.

We are reaching out to ask you to take part in our district questionnaire. Your participation helps us form a complete picture of technology use for learning. Please know that your responses will remain anonymous to protect your privacy and they will help our school division choose the right technology for our classrooms. It will take approximately 5 minutes to complete.

The last day to complete this questionnaire is April 12, 2019.
