**Harper Park Weekly Newsflash**

**Tomorrow is an A Day.**

Students should bring their chrome books to school every day, fully charged.

The Virginia Department of Education (VDOE) is asking for families who have a child with a disability and is provided special education services through an individualized education program (IEP) to participate in the 2017-2018 Indicator 8 Parent Involvement Survey. The online survey is now open and available for completion in English and Spanish at the following websites:

- **English Version:** https://www.surveymonkey.com/r/VDOE2018English
- **Spanish Version:** https://www.surveymonkey.com/r/VDOE2018Espanol

Families who have more than one child receiving special education services are requested to complete a survey for each of their children.

**Reminder – Watch your speed in our school zone.** Parents – if you drop your children off in the morning, pull forward as far as possible in the kiss and ride lane. **This is ONE WAY traffic 8 AM – 8:45 AM with staff using the same entrance.** Exit the property through the rear exit and be sure to stop at all stop signs and obey speed rules. Students walk this way and there are high school bus stops in this area. **Drive as if you live here.**

**PTA NEWS:**

Please join the PTA! They do so many great things for your kids and Harper Park! Membership forms were sent home in the first day folder.

Please register with Giant so the PTA can earn money that they use for projects at Harper Park. Use this link:

Collect and send in your BOX TOPS – to the main office.

Harris Teeter too!

WHAT PARENTS NEED TO KNOW

Nicotine can harm the brain as it develops—which continues until age 25 or older!

85% of e-cigarettes users ages 12-17 use flavored liquid- menthol, fruit, alcohol, chocolate, sweets, etc.

E-cigarettes don’t leave a smell like tobacco, so it’s going to be harder to know if your teen is vaping.

In 2015, 1 in 6 high school students reported using e-cigarettes in the past month.

More than 60 percent of teens believe that occasional use of e-cigarettes causes only little or some harm.

U.S. middle and high school students use e-cigarettes more than any other tobacco product.

Parents – there is an increase in middle school aged children vaping or using JUULS. Please review the following resources.
