Student Assistance Specialists

have expertise in the mental health and substance use field. They have master's degrees in Social Work or Counseling and most are licensed by the Virginia Department of Health Professions as Clinical Social Workers, Professional Counselors or Substance Abuse Treatment Practitioners. As members of the Unified Mental Health Team, Student Assistance Specialists support LCPS initiatives that promote student connectedness, enhance student resilience and educate about mental health and substance use issues.

What We Offer

- Direct consultation with parents and coordination of care with community providers
- School-based and county-wide parent presentations
- Staff professional development and consultation
- Community presentations/panels upon request
- Monthly newsletter containing current events information, educational & support resources
