

2022-2023

Academies of Loudoun Student Parking

Parking facilities are provided at the Academies of Loudoun as a convenience to 11th and 12th grade students who drive to school. A limited number of parking spots (300 each day) are available for students. Permits are issued via a lottery system with 12th grade students having priority. **Please note that parking permits at the Academies are separate from parking permits at home schools. If students intend to drive to both locations, they must apply at both schools separately.** Pending availability, any remaining permits will be open to 10th grade students beginning 2nd semester.

- Parking permit applications should be completed by students (not parents). It is important that students who drive are aware of the process and procedures.
- Applications for permits must be accurate and complete when submitted. Failure to provide accurate information will prevent applications from being processed.
- Communication regarding parking permits will be made via the email address entered on the application. Please ensure the email address provided is accurate and monitored.
- Parking permits are assigned specifically for either A or B days. Failure to provide the correct ACL day on the application will prevent processing.
- **The window for entering the parking permit lottery will close on August 15.** Applications received after August 15 will be processed on a first come first served basis pending availability.
- There is no fee for parking at the Academies
- With a permit, students are permitted to park in any spot marked with a “star” symbol (i.e. no specific assigned spots).
- Students are not permitted to park in “Visitors”, “Staff”, or unmarked spaces.
- Parking permits must be hung visibly on the rearview mirror on your vehicle.
- Students may not sit in parked vehicles or linger in the parking area.
- Traffic laws, school regulations, and normal safety procedures must be observed at all times.
- The speed limit on school property is 10 miles an hour.
- Drivers are responsible for the conduct of their passengers and the contents of their vehicles while on school grounds and while driving to and from school.
- Cars parked on school property are subject to search under School Board Policy 8-2.

The administration reserves the right to rescind driving privileges of students for the following reasons:

1. Not showing sufficient academic progress

2. Accumulating excessive tardies or absences
3. Excessive or serious disciplinary infractions
4. For any other reasons deemed appropriate
