How to Update Your Oracle Password

Effective March 2019 your Oracle password must be changed every 90 days. New passwords must be a minimum of 8 characters and have at least:
- 1 letter, 1 number, and 1 special character.

1. Log in to Oracle.
2. Click the Settings icon located at the top right of the window.
3. Click the Preferences link.
4. In the Change Password area, enter your old password in the Old Password field.
5. In the New Password field, enter your new password.
6. In the Repeat Password field, re-enter your new password.
7. Click the Apply button located at the top right of the window.
