

# Stone Hill Middle School

Leveraging the powers of community, relationships, and collaboration to achieve academic excellence for all

23415 Evergreen Ridge Dr.  
Ashburn, VA 20148

## Personalized Learning at Stone Hill

The mission of Loudoun County Public Schools is to empower all students to make meaningful contributions to the world.

This year at Stone Hill, we will be using Personalized Learning to enhance instruction. Our goal is to empower students to own their educational journey by providing a supportive environment for students to become lifelong learners.

## Personalized Learning is...

teachers using **flexible content and tools** within their lesson that allow students to work at their own pace and meet their individual needs.

teachers using **targeted instruction** to match the specific needs and learning goals of each student.

teachers promoting continuous **student reflection and ownership** over their learning.

teachers using **data driven decisions** to make instructional judgments and groupings.
