

COMPUTER SCIENCE

EXPERIENTIAL LEARNING OPPORTUNITIES

The LCPS Computer Science Experiential Learning program was created to provide a successful long-term sustainable strategy to integrate computer science and computational thinking skills into every subject (i.e. Math, Science, Social Studies, etc.) for grades K-12 to bridge the gap between computer science education and the Tech Talent workforce pipeline.

EXPERIENCES

- Capstone Projects
- Internship
- Internship Fairs
- Mentorship

EXPERIENCE DETAILS

- Computer science related
- Can be integrated with the computer science curriculum and computational thinking
- Developed showcasing the profile of an LCPS graduate
