

HOW TRAILSIDE KEEPS PARENTS "IN THE KNOW"

SCHOOL WEBSITE

www.lcps.org/trailside

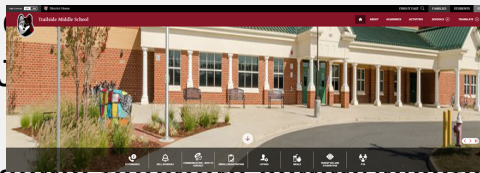

- Trailside's homepage includes a list of upcoming dates on the left navigation bar, as well as a link to the full school calendar.
- Trailside's scrolling headlines on the homepage provide information and links to flyers about upcoming events - click "READ MORE" at the bottom right corner of any of these headlines.

MESSAGES

peachjar

- Teachers send emails via their TeacherVue and LCPS Email accounts.
- Counselors and deans send email communication via Naviance.
- Administrators send messages via the school website.
- LCPS sends Peachjar messages about upcoming events and opportunities.
- Using Remind.com, some teachers communicate brief messages that are sent to parents as a text and/or email, if you opt in to receive these.

SCHOOLGY

<https://learn.lcps.org/>

- Teachers maintain a Schoology course for all classes to post announcements, assignments/due dates, and course materials.
- Due dates can be viewed on the student's Schoology calendar.
- Students have access to Schoology via LCPSGo (go.lcps.org), or can go directly to LCPS's Schoology URL (<https://learn.lcps.org>) and log in using their studentID@lcps.org account.
- Parents can log into Schoology via ParentVUE (<https://portal.lcps.org/>) and view all of their child/children's courses and submitted work by navigating the drop-down menu at the top right below their name. NOTE: The gradebook of record is Phoenix/Synergy, which can be accessed through ParentVUE and is not the Schoology gradebook.

To learn more about Schoology for Parents, visit: http://bit.ly/parents_schoology

PARENTVUE

<https://portal.lcps.org>

- Parents can check their child's attendance record, class schedule, grade book, course history, test history, edit student information and view messages teachers have sent via TeacherVue.
- Parents will receive an activation code from the school for first-time access. For help logging in, click the "Forgot Password" link at the Login screen.
- Can be accessed via the website URL or the iPhone/Android app.
