RE: ZCPA-2022-0001, ZMOD-2022-0013 & ZMOD-2022-0014, Arcola Town Center
Residential

Dear Mr. Brown:

School Board staff has reviewed the referenced application for Arcola Town Center Residential; comments are provided specifically for the zoning concept plan amendment (ZCPA-2022-0001). Based on 2021 Loudoun County Public Schools (LCPS) Dulles South planning district student generation factors, the proposed 200 single-family attached and 452 multifamily residential units will generate a total of 278 school-age children upon build-out: 119 elementary school-age children (grades K-5), 67 middle school-age children (grades 6-8), and 92 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. While Arcola Town Center Residential is in the LCPS Dulles South planning district, the schools presently serving the property are in the LCPS Dulles North planning district; six-year projected student enrollments for schools in both planning districts, including detail on unbuilt residential development within the same areas, are provided for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the *School Board Adopted FY 2023-FY 2028 Capital Improvement Program*, dated January 11, 2022.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for Arcola Town Center Residential. In the LCPS Dulles North and South planning districts, in addition to new school construction, major renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board. The associated costs are significant, and the proffer dollars would help offset such expenditures.

Mr. Marshall Brown

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The provided Pedestrian and Vehicular Circulation Plan (sheet 8), dated March 31, 2022, shows sidewalk construction throughout the development, this is noted and appreciated.

Thank you for the opportunity to comment on the Arcola Town Center Residential application. Each approved residential project impacts capital facility expenditures and operational costs, and increased costs can be anticipated with each additional school-age child residing in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

RE: SBPL 2020-0002 Arcola Center, Section 5, Town Center Residential

Dear Mr. Dunbar:

School Board staff has reviewed the referenced application for Arcola Center, Section 5, Town Center Residential. Based on 2019 Loudoun County Public Schools (LCPS) student generation factors for the Dulles South planning district, the proposed 150 single-family attached residential units will generate a total of 99 school-age children upon build-out: 44 elementary school-age children (grades K-5), 24 middle school-age children (grades 6-8), and 32 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

While physically located with the LCPS Dulles South planning district, the development is currently served by Dulles North planning district schools. As such, staff has included a six-year student enrollment overview of both the Dulles North and Dulles South planning district schools, as well as details on approved, unbuilt residential development within the same areas. The information detail is an excerpt from the ***School Board Adopted FY 2021-FY 2026 Capital Improvement Program***, dated December 17, 2019.

Safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The Preliminary Plat (sheet 5 of 8), dated July 1, 2020 illustrates construction of sidewalks throughout the development; this is noted and appreciated. This section of the Arcola Center community is adjacent to a future school, Elaine E. Thompson Elementary School, scheduled to open in fall 2021 (2021-2022 academic year).

Thank you for the opportunity to comment on the Arcola Center, Section 5, Town Center Residential application. The School Board is concerned about all land development applications. Capital facility expenditures and operational costs are significantly impacted by each approved residential project, and both can be anticipated to increase with each additional school-age child that resides in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

**DULLES SOUTH PLANNING DISTRICT
RESIDENTIAL DEVELOPMENT**

LCPS Planning staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2019 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.
