**ASHBURN PLANNING DISTRICT
RESIDENTIAL DEVELOPMENT**

LCPS Planning staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2019 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: ZMAP 2020-0002, SPEX 2020-0007, ZMOD 2020-0003 & 04, Belmont Executive Plaza

Dear Ms. Marsh:

School Board staff has reviewed the referenced application for Belmont Executive Plaza. Based on 2019 Loudoun County Public Schools (LCPS) Ashburn planning district student generation factors, the proposed 60 single-family attached and 142 multi-family residential units will generate a total of 78 school-age children upon build-out: 35 elementary school-age children (grades K-5), 18 middle school-age children (grades 6-8), and 25 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

Staff has also included a six-year student enrollment overview of LCPS Ashburn planning district schools, as well as details on approved, unbuilt residential development within the same area, for County staff and policy makers to assess regarding the overall impact of the project on area elementary and secondary schools. The information detail is an excerpt from the *School Board Adopted FY 2021-FY 2026 Capital Improvement Program*, dated December 17, 2019.

A review of Loudoun's approved residential development suggests that LCPS can anticipate an additional 5,000 students over the next six years. This calculation does not embody children who are currently being served by LCPS nor does it include future potential students from additional proposed rezonings and/or by-right developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential projects will also impact the future enrollments and capacity of area schools.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects in the Ashburn area. This designation should be noted in the proffer statement for Belmont Executive Plaza. In addition to new school construction, major renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board. The associated costs are significant, and the proffer dollars will help offset such expenditures.

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. School Board Policy 6210 states transportation services shall be provided for elementary students living more than one (1.0) mile and secondary school students living

Ms. Jacqueline Marsh

RE: ZMAP 2020-0002, SPEX 2020-0007, ZMOD 2020-0003 & 04, Belmont Executive Plaza

May 6, 2020

Page 2

more than one and one quarter (1.25) miles from the front door of their regular school of assignment. Further, elementary students eligible for transportation may be required to walk up to one (1.0) mile to reach a bus stop; middle and high school students eligible for transportation may be required to walk up to one and one-quarter (1.25) miles to a bus stop. The lack of safe walking paths for students within new residential developments creates a growing safety hazard and increases operational costs. Should new subdivisions contain sidewalks on both sides of the street, children could safely walk to a bus stop or school. The Concept Development Plan (sheet 3) illustrates construction of a 10-foot wide asphalt shared use path along the property frontage abutting Russell Branch Parkway. Additionally, numerous pedestrian connections are proposed throughout the development; this is noted and appreciated.

Thank you for the opportunity to comment on the Belmont Executive Plaza application. The Loudoun County School Board is concerned about all land development applications. Capital facility expenditures and operational costs are significantly impacted by each approved residential project, and both can be anticipated to increase with each additional school-age child that resides in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director
