Cellular Tower Proposal at Freedom High School

Milestone Towers is proposing a 150-foot tall telecommunications facility (monopole) at Freedom High School, located at 25450 Riding Center Drive in South Riding. AT&T will be the first wireless carrier to locate on the proposed monopole; there will be space for additional wireless providers.

The placement of the monopole on Loudoun County Public Schools (LCPS) property is guided by Loudoun County School Board Policy and Regulation 6350, "Wireless Network Facility Colocation." The School Board will review the proposal over the coming months. Milestone Towers must also obtain Loudoun County-required land use approvals and permits.

LCPS staff will be hosting a public briefing on Monday, July 18, 2022, at 6:00 p.m. in the auditorium of Freedom High School. The meeting will begin with a short informational presentation by Milestone Towers, followed by time for answering questions from the community.

Additional details on the proposal, including the identified location and what the monopole will look like, can be found on the LCPS 'Freedom High School Cellular Tower Proposal' webpage (<https://www.lcps.org/Page/227914>). A link for submitting questions prior to the July 18 briefing is also provided on the webpage; the questions will be answered in person at the public briefing.

Comments and questions may also be sent to lcpsplan@lcps.org.
