RE: LEGI-2023-0012/ZMAP-2020-0008, Fleetwood North

Dear Mr. Brown:

School Board staff has reviewed the fifth submission materials for the Fleetwood North application.

While there has been no change to the proposed residential component (244 single-family detached residential units), staff offers an updated assessment of the impact of this development on schools. While Fleetwood North is in the LCPS Dulles South planning district, the schools presently serving the property are in the LCPS Dulles North planning district; six-year projected student enrollments for schools in both planning districts as well as detail on unbuilt residential development within the same areas are provided for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the *School Board Adopted FY 2025-FY 2030 Capital Budgets*, dated December 12, 2023.

Thank you for the additional opportunity to comment on the Fleetwood North application. Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

A - To relieve current and projected student enrollment in the Dulles North and South areas, additional schools are planned and/or under construction.

B - The projected student enrollment does not include the impact of this proposed application. Prior to the fall 2028 opening of a new high school (HS-14) and beginning with the 2024-2025 academic year, secondary school students residing in the current Brambleton MS/Independence HS attendance zone will be served by three schools - Watson Mountain MS, Brambleton MS and Independence HS. In spring 2027, tied to the fall 2028 opening of HS-14, attendance zones will be modified and subsequent year student enrollment projections adjusted to reflect the secondary school zone changes.

C - Modular classrooms are being used to provide a temporary increase in building capacity.

DULLES NORTH PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth. Detail on proposed/pending residential development applications, as of September 2023, is provided in Appendix F.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2023 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

Detail on proposed/pending residential development applications, as of September 2023, is provided in Appendix F.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2023 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: LEGI-2023-0012 / ZMAP-2020-0008, Fleetwood North

Dear Mr. Brown:

School Board staff has reviewed the fourth submission materials for the Fleetwood North application. The attached project assessment reflects the revised residential unit count (244 single-family detached units) and outlines the operational and capital impact of the application on Loudoun County Public Schools (LCPS).

Please note while Fleetwood North is in the LCPS Dulles South planning district, the schools presently serving the property are in the LCPS Dulles North planning district; six-year projected student enrollments for schools in both planning districts, including detail on unbuilt residential development within the same areas, are provided for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the *School Board Adopted FY 2024-FY 2029 Capital Budgets*, dated December 13, 2022.

Thank you for the additional opportunity to comment on the Fleetwood North application. Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

DULLES NORTH PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2022 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

DULLES SOUTH PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2022 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: ZMAP-2020-0008, Fleetwood North

Dear Mr. Brown:

School Board staff has reviewed the third submission application for Fleetwood North. Based on 2022 Loudoun County Public Schools (LCPS) Dulles South planning district student generation factors, the proposed 196 single-family detached residential units will generate a total of 176 school-age children upon build-out: 74 elementary school-age children (grades K-5), 42 middle school-age children (grades 6-8), and 60 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. While Fleetwood North is in the LCPS Dulles South planning district, the schools presently serving the property are in the LCPS Dulles North planning district; six-year projected student enrollments for schools in both planning districts, including detail on unbuilt residential development within the same areas, are provided for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the *School Board Adopted FY 2024-FY 2029 Capital Budgets*, dated December 13, 2022.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for Fleetwood North. In addition to new school construction, major renovations, and rehabilitation projects at existing school facilities in both the Dulles South and Dulles North planning districts are being reviewed and initiated by the School Board. The associated costs are significant, and the proffer dollars would help offset such expenditures.

Safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The provided Context Map (sheet 19 of 21), dated January 20, 2023, shows sidewalk construction throughout the development; this is noted and appreciated.

Thank you for the opportunity to comment on the Fleetwood North application. Each approved residential project impacts capital facility expenditures and operational costs, and increased costs can be anticipated with each additional school-age child residing in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

DULLES SOUTH PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2022 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: ZMAP-2020-0004, ZMOD- 2020-0008, ZMOD-2020-0009 & ZMOD-2020-0010 Fleetwood North

Dear Ms. Marsh:

School Board staff has reviewed the referenced application for Fleetwood North; comments are provided specific to the zoning map amendment (ZMAP-2020-0004). Based on 2019 Loudoun County Public Schools (LCPS) Dulles North planning district student generation factors, the proposed 320 single-family detached residential units will generate a total of 310 school-age children upon build-out: 137 elementary school-age children (grades K-5), 74 middle school-age children (grades 6-8), and 99 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

Staff has also included a six-year student enrollment overview of LCPS Dulles North planning district schools, as well as details on approved, unbuilt residential development within the same area, for County staff and policy makers to assess regarding the overall impact of the project on area elementary and secondary schools. The information detail is an excerpt from the *School Board Adopted FY 2021-FY 2026 Capital Improvement Program*, dated December 17, 2019.

A review of Loudoun's approved residential development suggests that LCPS can anticipate an additional 5,000 students over the next six years. This calculation does not embody children who are currently being served by LCPS nor does it include future potential students from additional proposed rezonings and/or by-right developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential projects will also impact the future enrollments and capacity of area schools.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for Fleetwood North. In addition to new school construction, major renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board. The associated costs are significant, and the proffer dollars will help offset such expenditures.

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. School Board Policy 6210 states transportation services shall be provided for elementary students living more than one (1.0) mile and secondary school students living

Ms. Jacqueline Marsh

more than one and one quarter (1.25) miles from the front door of their regular school of assignment. Further, elementary students eligible for transportation may be required to walk up to one (1.0) mile to reach a bus stop; middle and high school students eligible for transportation may be required to walk up to one and one-quarter (1.25) miles to a bus stop. The lack of safe walking paths for students within new residential developments creates a growing safety hazard and increases operational costs. With sidewalks constructed on both sides of the street, children could safely walk to a bus stop or school as appropriate.

Thank you for the opportunity to comment on the Fleetwood North application. The Loudoun County School Board is concerned about all land development applications. Capital facility expenditures and operational costs are significantly impacted by each approved residential project, and both can be anticipated to increase with each additional school-age child that resides in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,
