### **Cellular Tower Proposal at Stone Bridge High School**

Milestone Towers is proposing a 155-foot tall telecommunications facility (monopole) at Stone Bridge High School, addressed at 43100 Hay Road in Ashburn. AT&T will be the first wireless carrier to locate on the proposed monopole and there will be space for additional wireless providers.

The siting of the monopole on Loudoun County Public Schools (LCPS) property is guided by Loudoun County School Board Policy and Regulation 6350, *Wireless Network Facility Colocation*. The proposal will be reviewed by the School Board over the coming months. Milestone Towers must also obtain Loudoun County-required land use approvals and permits.

LCPS staff will be hosting a virtual public briefing on Wednesday, April 14, 2021 at 4:00 p.m. The meeting will consist of a short informational presentation by Milestone Towers, followed by time for answering submitted questions from the community. The April 14 briefing will be broadcast live on Comcast Channel 18 and Verizon Fios Channel 43 as well as live-streamed from the LCPS website ([www.lcps.org](http://www.lcps.org)); there will be no in-person gathering due to the current COVID-19 pandemic.

Additional details on the proposal, including the identified location and what the monopole will look like, can be found on the LCPS 'Stone Bridge High School Cellular Tower Proposal' webpage (<https://www.lcps.org/Page/227914>). A link for submitting questions prior to and during the April 14 briefing is also provided on the webpage.

Questions and comment may also be sent to [lcpsplan@lcps.org](mailto:lcpsplan@lcps.org).
