RE: LEGI-2023-0029/ZMAP-2022-0002, Shaw Road

Dear Mr. Brown:

School Board staff has reviewed the third submission materials for the Shaw Road application.

While there has been no change to the proposed residential component (274 multi-family residential units), staff offers an updated assessment of the impact of this development outlining the operational and capital impact of the application on Loudoun County Public Schools (LCPS). Also provided is a six-year student enrollment overview as well as detail on unbuilt residential development in the LCPS Eastern Loudoun Planning district; this is an excerpt from the *School Board Adopted FY 2025-FY 2030 Capital Budgets*, dated December 12, 2023.

Thank you for the additional opportunity to comment on the Shaw Road application. Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

EASTERN LOUDOUN PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth. Detail on proposed/pending residential development applications, as of September 2023, is provided in Appendix F.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2023 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: ZMAP-2022-0002, Shaw Road

Dear Mr. Brown:

School Board staff has reviewed the second submission application for Shaw Road. Based on 2022 Loudoun County Public Schools (LCPS) Eastern Loudoun planning district student generation factors, the proposed 274 multifamily residential units will generate a total of 96 school-age children upon build-out: 40 elementary school-age children (grades K-5), 23 middle school-age children (grades 6-8), and 33 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. Staff has included a six-year student enrollment overview of the LCPS Eastern Loudoun planning district schools, including detail on unbuilt residential development within the same area, for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the *School Board Adopted FY 2024-FY 2029 Capital Improvement Program*, dated December 13, 2022.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for Shaw Road. In the LCPS Eastern Loudoun planning district, renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board; residential growth within this area of Loudoun may also trigger the need for additional schools to serve future students. The associated costs are significant, and the proffer dollars would help offset such expenditures.

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The provided Vehicular and Pedestrian Circulation

Plan (sheet 6), dated June 1, 2023, shows sidewalk construction throughout the development; this is noted and appreciated.

Thank you for the opportunity to comment on the Shaw Road application. Each approved residential project impacts capital facility expenditures and operational costs, and increased costs can be anticipated with each additional school-age child residing in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

EASTERN LOUDOUN PLANNING DISTRICT RESIDENTIAL DEVELOPMENT

LCPS Planning and GIS Services staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2022 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

RE: ZMAP-2022-0002, SPEX-2022-0014 & ZMOD-2022-0012, Shaw Road

Dear Ms. Marsh:

School Board staff has reviewed the referenced application for Shaw Road; comments are provided specific to the zoning map amendment (ZMAP-2022-0002). Based on 2021 Loudoun County Public Schools (LCPS) Eastern Loudoun planning district student generation factors, the proposed 87 multifamily residential units will generate a total of 28 school-age children upon build-out: 12 elementary school-age children (grades K-5), 7 middle school-age children (grades 6-8), and 9 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. Staff has included a six-year student enrollment overview of the LCPS Eastern Loudoun planning district schools, including detail on unbuilt residential development within the same area, for County staff and policymakers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the ***School Board Adopted FY 2023-FY 2028 Capital Improvement Program***, dated January 11, 2022.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for Shaw Road. In the LCPS Eastern Loudoun planning district, renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board; residential growth within this area of Loudoun may also trigger the need for additional schools to serve future students. The associated costs are significant, and the proffer dollars would help offset such expenditures.

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The provided Vehicular and Pedestrian Circulation Plan (sheet 6), dated March 25, 2022, shows sidewalk construction throughout the development;

this is noted and appreciated.

Thank you for the opportunity to comment on Shaw Road application. Each approved residential project impacts capital facility expenditures and operational costs, and increased costs can be anticipated with each additional school-age child residing in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

LCPS Planning staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2021 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.
