RE: ZMAP-2021-0022, ZMOD-2021-0086 & ZMOD-2021-0087, University Center Lakeview

Dear Mr. Brown:

School Board staff has reviewed the second submission application for University Center Lakeview; comments are provided specific to the zoning map amendment (ZMAP-2021-0022). Based on 2021 Loudoun County Public Schools (LCPS) Ashburn planning district student generation factors, the proposed 617 multifamily residential units will generate a total of 172 school-age children upon build-out: 74 elementary school-age children (grades K-5), 41 middle school-age children (grades 6-8), and 57 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. Staff has included a six-year student enrollment overview of the LCPS Ashburn planning district schools, including detail on unbuilt residential development within the same area, for County staff and policy makers to assess regarding the overall impact of the project on LCPS. The information detail is an excerpt from the ***School Board Adopted FY 2023-FY 2028 Capital Improvement Program***, dated January 11, 2022.

As calculations indicate that public schools account for a significant portion of Loudoun's capital expenditure costs, School Board staff requests that a proportionate share of the applicant's capital facility contribution be set aside specifically for public school capital projects. This designation should be noted in the proffer statement for University Center Lakeview. In the LCPS Ashburn planning district, renovations and rehabilitation projects at existing school facilities are being reviewed and initiated by the School Board; residential growth within this area of Loudoun may also trigger the need for additional schools to serve future students. The associated costs are significant, and the proffer dollars would help offset such expenditures.

And finally, safe walking paths remain an important concern for the School Board, staff, and parents of children who attend our schools. The provided Traffic and Pedestrian Circulation Plan (sheet 5), dated April 26, 2022, shows sidewalk construction throughout the development,

this is noted and appreciated.

Thank you for the opportunity to comment on University Center Lakeview application. Capital facility expenditures and operational costs are impacted by each approved residential project, and both can be anticipated to increase with each additional school-age child that resides in Loudoun County.

Should you require further information, please contact me at your earliest convenience.

Sincerely,

Beverly I. Tate, Director

**ASHBURN PLANNING DISTRICT
RESIDENTIAL DEVELOPMENT**

LCPS Planning staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2021 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.

Dear Mr. Brown:

School Board staff has reviewed the referenced application for University Center Lakeview; comments are provided specific to the zoning map amendment (ZMAP-2021-0022). Based on 2021 Loudoun County Public Schools (LCPS) Ashburn planning district student generation factors, the proposed 614 multi-family residential units will generate a total of 172 school-age children upon build-out: 74 elementary school-age children (grades K-5), 41 middle school-age children (grades 6-8), and 57 high school-age children (grades 9-12). The attached assessment outlines the operational and capital impact of the project on LCPS.

LCPS student enrollment will continue to grow from approved residential projects as well as future proposed developments. Not only do student demographics within existing subdivisions change annually and over time, but additional residential development also impacts school enrollments and capacities. Staff has included a six-year student enrollment overview of the LCPS Ashburn planning district schools, including detail on unbuilt residential development within the same area, for County staff and policy makers to assess regarding the overall impact of the project on LCPS. **ASHBURN PLANNING DISTRICT
RESIDENTIAL DEVELOPMENT**

LCPS Planning staff tracks residential building permit activity for Loudoun County and its incorporated towns. The monitoring includes both rezoned and by-right developments (i.e., approved, proposed, inactive) and construction status. Tracking the approved under construction and approved future "pipeline" development assists staff in estimating student growth.

Residential development detail is provided for approved, but not yet completed, residential projects in LCPS geographic planning districts. Complete, proposed, inactive, and/or age-restricted residential applications are excluded from the below provided information. Utilizing 2021 student generation factors, the number of potential LCPS students has been calculated based on the remaining number of residential units to be constructed.
