### Cellular Tower Proposal at Woodgrove High School

Milestone Towers is proposing a 165-foot tall telecommunications facility (lattice tower) at Woodgrove High School, located at 36811 Alder School Road in Purcellville. Loudoun County Public Safety and AT&T will be the first to locate on the proposed tower; there will be space for additional wireless providers.

The placement of the tower on a Loudoun County Public Schools (LCPS) site is guided by Loudoun County School Board Policy and Regulation 6350, *Wireless Network Facility Colocation*. The School Board will review the proposal over the coming months. Milestone Towers must also obtain Loudoun County-required land use approvals and permits.

LCPS staff will be hosting a public briefing on Tuesday, May 3, 2022, at 5:00 p.m. in the cafeteria of Woodgrove High School. The meeting will consist of a short informational presentation by Milestone Towers, followed by time for answering questions from the community.

Additional details on the proposal, including the identified location and what the lattice tower will look like, can be found on the LCPS 'Woodgrove High School Cellular Tower Proposal' webpage (<https://www.lcps.org/Page/227914>). A link for submitting questions prior to the May 3 briefing is also provided on the webpage; the questions will be answered in person at the public briefing.

Comments and questions may also be sent to [lcpsplan@lcps.org](mailto:lcpsplan@lcps.org).
