

# **IMPORTANT ENROLLMENT NOTICE**

Maximum class sizes for the 2021-22 school year have been established at LCPS elementary schools as follows:

Kindergarten: 25\*

Grades 1-3: 28

Grades 4-5: 31

As these maximums are reached at specific grade levels, new students will be assigned to another LCPS school through the Office of Elementary Education and placed on a numbered waiting list. If space should become available during the year, parents will be given the option to either enroll their child at the home school or have their child remain in the overflow school for the remainder of the school year. Transportation will be provided by the school district for any child assigned to an overflow school.

\*School Board Policy 5080 provides two exceptions:

1. The first situation in which an exception is permissible is when staff deems that sufficient and appropriate classroom space is not available to for a new kindergarten class at the same school. In this situation, the maximum class size is 27.
2. The second situation in which an exception is permissible is when the creation of an additional class would result in an average kindergarten class size at that school of 13 or fewer students. In this situation, the maximum class size is 26.
