

**Hillsboro Charter Academy** is routinely inspected in accordance with the Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA). As required by the Commonwealth of Virginia and the EPA, this notification is to inform you that asbestos-containing material (ACM) is present in several locations in our school. The ACM is inspected semi-annually by qualified LCPS personnel to ensure that the material remains in good condition and is not creating an exposure hazard for building occupants. Records of all inspections, response actions, and sampling data are compiled in the school's Asbestos Management Plan document. This document also indicates the locations where asbestos-containing materials may be present.

The Asbestos Management Plan can be found in the administrative office at the school. In addition, a copy is maintained in the Loudoun County Public Schools Facilities Services Division offices, located at 1002-C Sycolin Road, Leesburg, Virginia.

Please feel free to request additional information about our Asbestos Management Plan, inspection findings, and our plan of action. The document is available for your review during normal office hours.
