

CAMPUS

The College Achievement & Multicultural Program for Unique Students (CAMPUS) is a high school college access program designed to meet the specific needs of first-generation college-bound students.

The CAMPUS program serves students whose parent/guardian did not earn a college degree in America.

CAMPUS is delivered during student's Study Hall block. Students participate in CAMPUS lessons, which focus on academic and college/career preparation, as well as have time to complete school work.

Helping first-generation college-bound students reach their fullest potential
