LCPS PARTNER

Building School and Community Partnerships

What is LCPS Partner?

LCPS Partner is an instructional collaboration for business, industry, and community members to connect with the Office of Career and Technical Education (CTE), Office of Community Connections (CC), and Office of Computer Science (CS). With the support of businesses and community members, LCPS Partner provides work-based learning, experiential learning, and future-ready opportunities.

How To Connect

Want to discuss what a potential partnership may look like within CTE, CC, and/or CS?

Chat with an LCPS Partner teammate to learn more about student opportunities. Book a brief 30-minute meeting to discuss a partnership with this team.

Experiences

Level I Engage Partnerships

Level I Partnership consists of engaging students through work-based learning, future ready, and experiential learning experiences. Examples of these experiences include: guest speaking or participating in a career event.

Level II Enrich Partnerships

Level II Partnership consists of participation and input in advisory capacities, that support the three offices of LCPS Partner. Examples include: serving on an advisory committee

Level III Empower Partnerships

Level III Partnership consists of the supervision of students through work-based learning and experiential learning experiences. Examples include: hosting a student intern
