Achieving mastery of the algebra content should be the goal of every student. At PFHS we believe that a grade between 100% to 80% (A or B) demonstrates mastery of the content. Any Summative Assessment score below an 80% may be retaken to improve your demonstration of mastery. The retake must be completed within a timeline established between the student and teacher. The retake score will replace the original score to a maximum of 80%. Prior to completing a retake, an additional assignment and completion of test corrections must be completed for remediation to ensure student has reviewed misunderstood material/content.
