Clinic Tips
Joy Jones, R.N., BSN
The cold and flu season is already upon us! Here are some simple things to help prevent the spread of viruses:

- Do not share drinks or eating utensils with friends.
- Frequently wash hands with warm water.
- Dress appropriately for the cold temperatures.
- Get enough sleep.
- A healthy diet can help ward off viral infections.

I know it can be a struggle for parents to figure out if their child has the flu or just a cold? Should they be sent to school or kept home? Hopefully this information will help you when deciding. Please remember if your child does run a fever, they need to stay home.

STAY HOME WHEN SICK: Those with flu-like symptoms should stay home for at least 24 hours after they no longer have a fever (100 degrees Fahrenheit or greater) or signs of a fever, without the use of fever reducing medicines. They should stay home even if they are using antiviral drugs.

Students who do not feel well should stay home. When students come to school ill, they not only are unable to participate fully in class, but they may also infect other students with their illness.

February 10-14 – SPIRIT Week
February 17 – Federal Holiday (Presidents Day)
March 3 – Student Holiday (County-wide Staff Development)
March 26 – End of 3rd grading period
March 27 – Student Holiday
April 6-10 – Spring Break
April 23 – STEAM Expo
Flu Facts: A Guide for Parents
Loudoun County Public Schools

What is the flu?
Influenza (also known as flu) is a contagious respiratory illness caused by influenza viruses that infect the nose, throat, and lungs. Flu is different from a cold, and usually comes on suddenly. Each year flu viruses cause millions of illness, hundreds of thousands of hospital stays and tens of thousands of death in the United States.

How serious is flu?
While flu illness can vary from mild to severe, children often need medical care because of flu. Children younger than 5 years and children of any age with certain long-term health problems are at high risk of flu complications like pneumonia, bronchitis, sinus and ear infections. Some health problems that are known to make children more vulnerable to flu include asthma, diabetes and disorders of the brain or nervous system. The flu vaccine is safe and helps protect your child from the flu. Your doctor may also prescribe other medication that may also help your child. It is important to notify your child’s doctor if your child experiences any symptoms that are included below.

How does flu spread?
Most experts believe flu viruses spread mainly by droplets made when someone with the flu coughs, sneezes or talks. These droplets can land in the mouths or noses of people who are nearby or possibly inhaled into the lungs. A person can also get the flu by touching something that has flu virus on it and then touching their mouth, eyes, or nose.

What are flu symptoms?
Flu symptoms can include fever, cough, sore throat, runny or stuffy nose, body aches, headache, chills, feeling tired and sometimes vomiting and diarrhea (more common in children than adults). Some people with the flu will not get a fever.

What if my child seems very sick?
Even healthy children can get very sick from flu. If you child is experiencing the following emergency warnings signs you should go to the emergency room or call 911.
- Fast breathing or trouble breathing
- Bluish or gray skin color
- Not drinking enough fluids (not going to the bathroom or not making as much urine as they normally do)
- Severe or persistent vomiting
- Not waking up or not interacting
- Being so irritable that the child does not want to be held
- Flu symptoms improve, but then return with fever and worse cough
- Fever with rash

Children should NOT return to school until they have been free of a fever for at least 24 hours without taking fever-reducing medication!

Information provided by the CDC
For more information, visit www.cdc.gov/flu or call 800-CDC-INFO
How can I protect my child from the flu?

**Get vaccinated**
- Influenza or "flu" can cause serious illness. Vaccination is the best way to protect yourself and your family!

**Cover your Cough or sneeze**
- Cover your mouth and nose with your sleeve or a tissue when you cough or sneeze. Toss your used tissue in the waste basket and wash your hands!

**Wash your hands**
- Wash your hands often with soap and water, or use an alcohol-based hand cleaner!

**Avoid touching your eyes, nose, and mouth**
- If you touch surfaces with the flu virus, you can get the flu by touching your eyes, nose or mouth!

**Stay home if You are sick and seek medical help!**
- Flu viruses go wherever you go when you are infected. Stay at home and check with your healthcare provider when needed!

For more information, visit the [LCPS Student Health Services Webpage!](http://www.lcpsstudenthealthservices.com)
Winter Break came with a huge wave of GRATITUDE this year! It was heartwarming to see how proactive our community is toward helping those less fortunate. This year's Giving Tree gift card drive was a HUGE success! This year we were able to help over 30 families and include a special soup jar put together by Ms. Hrutkay's math students! Parents used specific gift cards to ensure a special Holiday gift that their students were sure to enjoy. Being a part of the Raven community is truly a blessing!

Food for Neighbors has been supplementing the weekend food for many of our families each week, and snacks for hungry students each day! Check this link to see how you can help: https://www.foodforneighbors.org/

Our PFalls Cluster Spring Clothing drive will be from March 23rd - April 3rd! As you start spring cleaning, please consider donating your clean, gently used, spring and summer clothing for all ages to one of our drop boxes! Please label your donations by size range and gender if possible. Thank you so much for continuing to support our local families this way!

If you are in need of food, clothing or other resources as this winter continues, please feel free to contact me by email or phone!

Inclement Weather

If weather or other reasons require either closing or delaying the opening of school before buses start on their routes, announcements will be made over the radio and TV stations listed below by 6:00 a.m. These stations are notified by direct calls and should be the primary stations that are monitored.

You may also sign up to receive emails and text messages regarding closings from Loudoun Alert. Go to: https://www.loudoun.gov/alert to register for this service.

RADIO
WMAL 630 AM
WTOP 1500 AM
WINC 92.5 FM
WTOP 103.5 FM and 103.9 FM

TV
NBC TV 4
FOX TV 5
WJLA TV 7
News Channel 8
WUSA TV 9

If severe weather strikes while students are in school, a decision to close school for the remainder of the day may be made. Activating the transportation system due to inclement weather takes time. See two-hour closing information. In the event of a delayed opening, please stay tuned to the radio/TV stations in case some change in the weather causes schools to be closed for the day.
The River Bend Chapter of the National Junior Honor Society was chartered in the Fall of 2016. The National Junior Honor Society is the nation’s premier organization established to recognize outstanding middle-level students. More than just an honor roll, NJHS serves to recognize those students who have demonstrated excellence in the areas of scholarship, service, leadership, character, and citizenship. On January 16, 2020, the River Bend Chapter inducted 18 members into its 2019-2020 class of the National Junior Honor Society. Chapter membership not only recognizes students for their accomplishments, but also challenges them to develop further through active involvement in school activities and community service.

Please note that all academic planning timelines for rising 9th graders are set by PFHS.

End of Quarter News
The end of the 2nd grading period and first semester was January 17th and Report Cards for Quarter 2 are now viewable in ParentVUE. It is so important for parents to talk with their children about school and academic progress. If you are concerned about a class, please contact that teacher directly. If you would like to schedule a conference with all your child’s teachers, you may do so through the grade level counselor. Please remember that to be promoted to the next grade, students MUST pass 3 out of the 4 academic subjects. If they fail 2 or more classes, they MUST attend summer recovery to be promoted. If they fail 4 classes, summer recovery is not an option and the Principal must consider retention.

For more information about School Counseling and related programs, including the Unified Mental Health Team, please visit our website at lcps.org/rbms/page/91871. Additionally, please keep an eye on the grade level Weekly Bulletins for current announcements!

The course selection process for classes to be taken during the 2020-2021 school year has begun. All academic teachers have made recommendations for each student suggesting what level of classes they should take next year. Each student had the opportunity to choose their electives. These course requests are available to view in Parent/StudentVue under the “Course Request” tab. The absolute deadline to make changes to the course requests will be April 1, 2020. *Additional activities for the rising 9th grade will include a visit to Potomac Falls to learn about the extracurricular activities that are offered. The activities fair will be planned in the spring.

We are very excited to introduce a new section of our newsletter written by some of our students in the Communications classes. Please take a few minutes to read through the
submissions chosen for this quarter’s newsletter.

Ayoob Saeed – 8th grade

Do something drastic, cut the plastic!!
By: CC DePascale

Remember in second grade, when we learned about recycling? It was such an important topic that schools took the time to teach their students all about it, yet some of these same schools aren’t actually recycling themselves. Do you notice all of those big blue bins in your classrooms? They don’t need to be there. According to some reliable sources, many Loudoun schools are not recycling the material that is thrown into the recycling bins.

Surprisingly, the issue extends beyond our schools. I recently discovered that they are not recycling in my own neighborhood. Some days, the recycling truck doesn’t even come, and the trash truck picks up the recycling, and simply dumps it in the landfills. So much for saving the planet.

Loudoun County needs to think about what damage is done to the Earth when we don’t recycle! It is unbelievable to see the amount of paper thrown into the recycling bins in many of our classes where students are constantly using scrap paper, and all of that reusable paper is going to waste. Even in our homes, people throw their plastic bottles and containers right into the trash can. At local sporting events, there is rarely a recycling bin available.

People have health problems from pollution, and pollution comes from trash and landfills. So not only would you be saving our planet by recycling, you would be saving your peers and your parents from potential health issues as well! Something drastic needs to happen to save our Earth and to reuse our resources. We only have so long to live on it, so let’s make it count! So to close off for today, don’t be a punk. Recycle your junk!

A Crash Course in Electives
By: Nadia Herritt

All students experience the transition from one grade to the next and some of the new opportunities presented each year. In middle school, we all have to go through that process of choosing our electives, whether it is Art, Drama, Robotics, Communications, Coding, etc. For those of you(probably, the sixth graders) who are not too familiar with electives, I will elaborate. At some point before the end of the school year, each and every student has to choose their electives for their next school year. Many of us struggle to choose our electives, even me, an eighth grader.

Students are given a list of electives with a description of each one. For example, when I was in seventh grade, I had to choose my electives for eighth grade. There were so many different electives and it was very hard to choose. The problem is that we are limited to choosing only two electives, which is not very many compared to the amount of electives on the list.

I eventually ended up taking Exploratory Dramatics and Communications, along with Art as backup. You might be wondering why you need a backup. Let’s say, you picked out Robotics and Art, then you chose Teen Living as a backup. What do you
think would happen if Art was too popular and a lot of other students were selecting that as one of their electives? Eventually, all of the Art classes would be full and there would be no more room for another student. This would mean that you would have to use your backup elective instead.

Exploratory Dramatics, or theater class, this class is taught by Mr. Simonton, who you will immediately recognize by how he towers over the teachers and the students. From my experience in the class, which is about a year and 5 months, I can say that it is very entertaining and helpful. Last year, we learned about Pantomime, Improv, Technical Theater, Tableau, and Monologues. Plus, we did a one-act play nearing the end of the year. This year’s curriculum so far has consisted of Improv, Pantomime, Tableau, Voice Acting, and currently, we are working on Puppetry. I do know that each year you take in Drama will not be the same. This year, Mr. Simonton, the drama teacher, told us about some of the things we are going to do in the future. Such as, acting out scenes and Technical Theater.

Communications is another option and it is also known as Creative Writing class. If you take the class, your teacher will either be Mrs. Sheridan or Mrs. Rombach, who are both English teachers too. This class is not very well-known by the students of River Bend, but I am hoping to change that with this article. At first, Communications used to be kind of an extra class for those who were struggling with English. That is the reason why I didn’t take it in sixth grade or seventh grade. Now, it is new and improved, instead of extra English, we get Creative Writing, which is a lot better. I am currently taking Communications, which I do **NOT** regret. Communications is relatively a freestyle class and if you are interested in the arts, it is the place to be. Currently, we have created blogs, we organized and ran the Wear It Pink campaign, we also have writing warm-ups and of course, we work on our creative writing.

We are currently working on podcasts, which takes much longer than you’d imagine.

Art class has a diverse style. In sixth grade, everyone takes art with Mrs. Epperson, who is a pretty cool teacher. If you take Art class again in seventh grade (like me), you will have Mrs. Brown. After that, if you are interested in taking the class in eighth grade, you have two options to pick from: Art OR 3D art. Art class consists of projects that use acrylic paint, oil pastels, clay (which is super fun), magazines (you’ll understand if you take the class), and other materials or just colored pencils and a creative mind. Keep in mind that you do not have to be artistic or extremely talented in order to succeed in this class. It is just as fun, even if you have no artistic talent. In Art, you try new projects each year. It’s not repetitive or boring. You all may be wondering about 3D art. I cannot say much about it since I have not taken the class, but my sister has told me a few things about it. In 3D Art, your focus is on 3D projects. I’ve also been told that there are 3D sculptures and creations.

These are only three of the many electives available at River Bend Middle School. The remaining options will be showcased in our 4th quarter Newsletter, so stay tuned for more details.
Movie Review
By: Ayyoob Saeed

Hello there Ravens! It’s that time of year again, the snow is falling, the children are complaining, and the dreidels are spinning, so it must be winter! For me, winter is the best season, not only for the days off from school but also the movies. That’s right, today I’ll be reviewing a holiday/winter classic. Specifically, the one and only It’s a Wonderful Life!

It’s a Wonderful Life is a movie that was made in 1946, directed by Frank Capra and stars James Stewart as the main character. The story follows the life of James Stewart’s character, George Bailey, through a series of flashbacks until we cut back to the present day where he has become suicidal after thinking that his life has no meaning and that everyone else would be better off if he had never existed. While this may seem like a simple enough plot, I can assure you that the director, actors, cinematographers, visual effects coordinator, and the rest of the film crew, all transforms this simple plot into a unique and heart-warming story. Along with the great story, It’s A Wonderful Life has a timeless message: value your life, be contempt with it, and try to do the most good you can in this world before you die.

When watching this movie for the first time, I realized that I should be more grateful for the things I have, instead of always having a goal to get something or do something that only really affects me. The movie’s technical accomplishments are also quite spectacular. For example, when making fake snow for movies, most if not all special effects coordinators used corn flakes to imitate snow, but in It’s a Wonderful Life they used foamite -- the material used in fire extinguishers and sometimes marketed under the brand name Phomaide -- with sugar and water (or, by some accounts, with soap flakes) to create a substance that could be sprayed virtually anywhere!

Anyways guys, I highly recommend It’s a Wonderful Life not only for its wholesome and timeless message, but also for its great story, acting, and technical achievements. For that, I’m going to give It’s a Wonderful Life, an ‘A+’. If you want to contact me, you can email me at booyya2006@gmail.com or my school email, 1002145@lcps.org. I hope you all enjoyed my review and I hope you had a great break!
