

Copying One Page Of A Flipchart To Another Flipchart

- Open ActivStudio
- Open both flipcharts

Look in the upper right-hand corner of the screen. There should be a black bar with several letters.

- Click on 'A'
- Choose Arrange Windows
- The second icon is Side-By-Side. Select that icon.

You should now see both flipcharts side-by-side.

- Choose Page Organizer (Multiple Page) for each side.
- Now, simply drag the page that you want to move or copy to the desired flipchart.

When you are done:

- X out of the Arrange Window
- X out of the unwanted side
- Maximize the side you want to finish.
- Close out of Page Selector view.
