Safety Tips for Teens

Twitter is a communications platform that brings you closer to the things you care about. At the heart of Twitter are small bursts of information called Tweets. Each Tweet is 140 characters long. You can also get links, see photos, videos, news stories and participate in conversations all directly in Tweets. To learn more, please visit the Twitter Basics help page.

Twitter is a fun way to connect with what is interesting to you. However, it's worth considering some of the possible safety issues that could come up. Here are some tips to help you have a positive experience.

What you can do:

- Think before you tweet
- Don't share your account
- Respect others
- Keep a healthy life balance
- Block and ignore

When it has gone too far:

- Talk it out
- Report a violation
- Talk to someone with authority
