Learning ASL is literally right at your fingertips! Click on them to learn.
Always know First, the ABCS
How would you use the alphabet to communicate?

How would you introduce yourself if you didn’t know sign language?

What identifying information would you provide when you meet a Deaf individual for the first time?

What is your favorite activity and why?

Can you explain why you like and dislike three activities from the list?
I look forward to meeting you in the future. Contact me for any questions.
