

TOLBERT ELEMENTARY

PERSONALIZED LEARNING

Personalized Learning is dynamically tailoring learning experiences to students' strengths, needs and/or interests. A PL approach supports PBL and One to the World by encouraging the following:

- (1) Access to significant content for students who may have learning gaps
- (2) Challenges for students who have shown basic mastery
- (3) Relevance for all students as their interests help shape the direction of "meaningful contributions to the world."

Follow us on Twitter @Tolbert_ES for photos and updates on our PL initiative!

Empowering all students to be respectful global thinkers, contributors and citizens.

Integrated digital content engages students in the process

Targeted instruction provides additional support as needed

Data driven decisions ensure all students are making meaningful progress

Student reflection and decision-making create "ownership" of learning
