VI. Principal's Report

1. Food Recovery Partnership

Rona Scott emailed her: Loudoun Hunger Committee (food pantries and faith community) Food Recovery Program in the works for unopened items in our district. Jan mtg with support services. Introduce the program in test schools. Committed: Tolbert could use the food for Backpack Buddies. Asking us to be a test school.

Kids take, yet don't eat fruit and milk, yogurts. Donating a fridge to store the unopened food? Who collects the food to store? Are we talking breakfast AND lunch?

2. Backpack Buddies needs to be marketed more to the parents. Christy will be sending out more flyers soon which will specify what types of food are needed.

3. Movies at Lunch time: trying to manage volume level and get kids to eat and behave. It's a reward that is successful. About 50% are watching and 50% are eating and chatting at a lower level. Problems are down from before this was implemented. Have tried other methods that have not worked well. Other schools do diff things that are NOT movies, but they seem to work. Some parents prefer no movies because of the lack of socialization. Looking to try other methods at Tolbert. "PBIS" committee will look into this. One idea is to have more people monitor the lunch room/volunteer
