The Mandt® program was developed in 1975 and has been a teaching tool in many settings and professional fields worldwide. The focus is on treating people with dignity and respect, building healthy relationships, and implementing proactive interactions.

This presentation will provide information to parents regarding the basic Mandt® principles as they relate to relationship skills, conflict resolution, and communication. Learning these principles helps families understand how we use Mandt® to build strong foundations with the students with whom we work. Building healthy, positive relationships between and among people is the ultimate goal of the Mandt® training program. The philosophy of the Mandt® system is based on “Putting People First” and “Supporting People, Not Just Their Behaviors.”™
