

Creating Videos with WeVideo

Adding Video Files on a Chromebook

1. In Google drive, create a folder called My Videos
2. Record video using the built-in camera.
3. From the **Gallery** within the camera, select the video, click **Save to Disk**, and upload the video to the **My Video** folder in Google Drive.

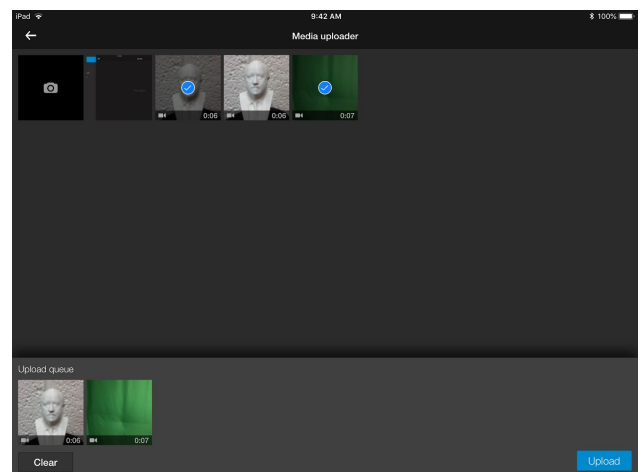

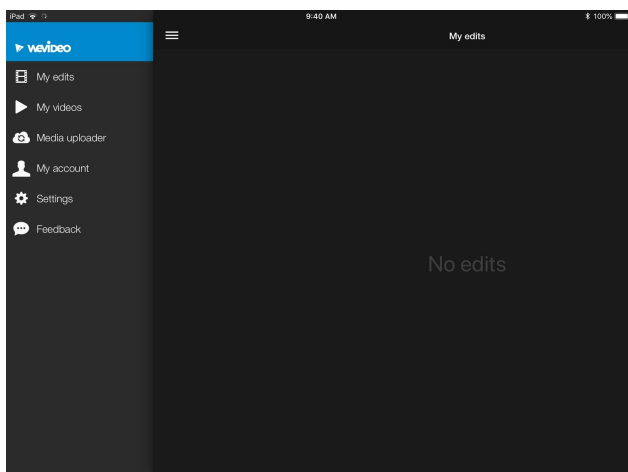

4. Open WeVideo from the Apps section, go to the **Media** tab, click on + sign in blue circle to import video, click on **Browse To Select**, go in to Google Drive **My Video** folder, select video file and click **Open**.

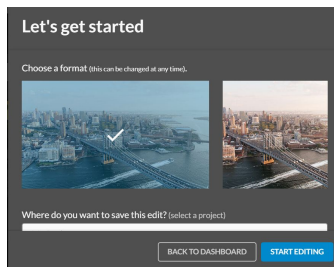

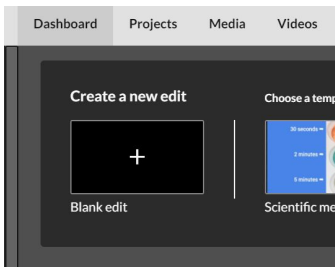

Adding Video Files on an iPad

1. Record video using the camera app.
2. Click on the WeVideo app and log in using Google account (Studentid@lcps.org)
3. Click on the 3 bars at top left and select Media Uploader
4. Go to the camera roll and select videos to upload.
5. Click Upload Button and select folder (My Media). Click Done.

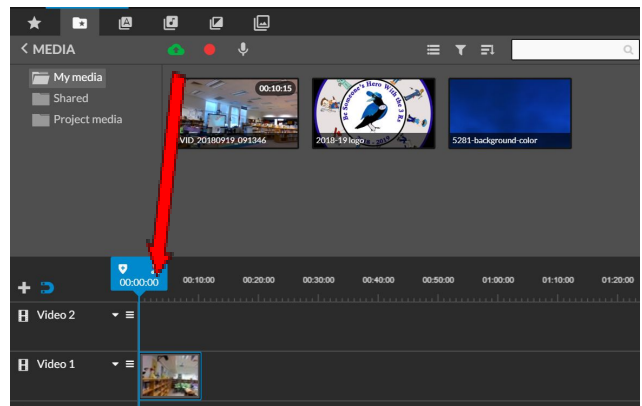

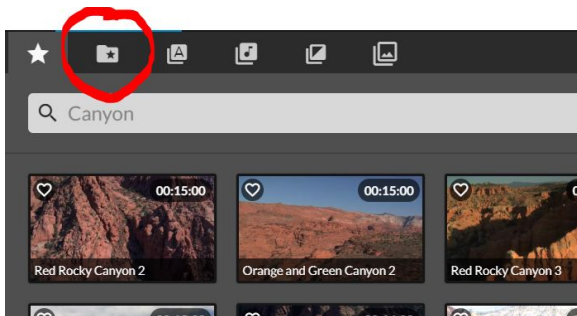

Editing Videos on a Chromebook

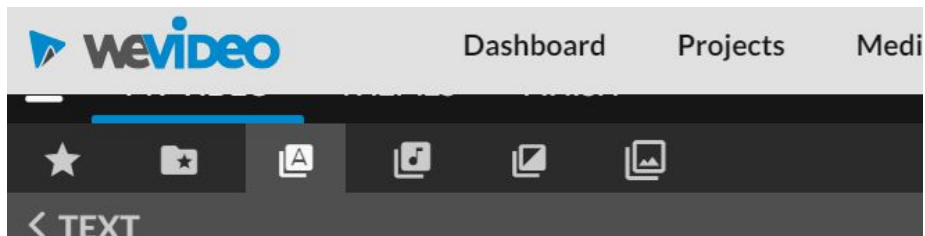

1. Click on **Create a new edit**. Click **Horizontal** and **Start Editing**

2. Click on **Media Folder**. Select video file and drag down to **Video 1** channel.

3. Click on the TABS at the top to add text, music, transitions and backgrounds

- 4.
