# KEEP IN MIND...

## ONLY A TOOL

Parental controls are simply tools that can assist parents. Nothing is a substitute for ongoing, open communication.

## KIDS ARE SMART

Children are smart, determined, and resourceful. They are growing up with this technology.

## BE PATIENT

Children's brains will continue to develop into their 20s. They are undergoing immense changes.

## **Attorney General Miyares Files Lawsuit Against Meta for Harming Youth Mental Health Through Its Social Media Platforms**

RICHMOND, VA — Today, Attorney General Jason Miyares and 41 other attorneys general throughout the country sued Meta in federal and state courts alleging that the company knowingly designed and deployed harmful features on Instagram and its other social media platforms that are purposefully addictive for children and teens. At the same time, Meta falsely assured the public that these features are safe and suitable for young users.

The attorneys general assert that Meta's business practices violate state consumer protection laws and the federal Children's Online Privacy Protection Act (COPPA). These practices have harmed and continue to harm the physical and mental health of children and teens and have fueled what the U.S. Surgeon General has deemed a "youth mental health crisis" which has ended lives, devastated families, and damaged the potential of a generation of young people.
