Disclosure to a Police Officer

“The decision to disclose your (or your child’s diagnosis) to a police officer will always be yours to make. If you have learned through experience that disclosure would be helpful in the particular situation, you may have to decide to disclose to a police officer. Law enforcement officers report that they make their best decisions when they have the best information. A good, strong autism or Asperger Syndrome diagnosis disclosure that includes the use of an information card, contact information for an objective professional and proof of diagnosis should be considered.”

Dennis Dehbault, a parent and leading voice on autism training for law enforcement and emergency responders.
How Do I know When It’s Time To Get Help?
