FOOD INVENTORY

Instructions: Check off any food that your child would easily accept to eat if it was served at the specified mealtime. Several items are listed under lunch and supper. Only check off the items in both places if your child would be served these foods at both meals. For example, if your child would eat peaches at lunch but it would not be served a part of supper, then check off peaches only under lunch. The "Seasonings and Condiments" section describes flavors your child would eat at any meal.
