

STUART W. WELLER
ELEMENTARY

ENRICHMENT Summer CAMPS

June 17-21, 2019

9:00 am - 12:00 pm

Registration: \$175

Weller Creates!

In this art class we will take a canvas, and brushes, and palette and paint outside! The way landscapes were meant to be painted. Learn how to set up a composition with the “magic formula” to get a great picture every time. Learn some of the “tricks” to making 3D into 2D and we’ll even throw in a couple of Bob Ross’ landscape tricks - what fun!

For students who have just completed grades 3-5.

STEAM Week!

Differentiated for primary and upper grades. Integrating science, technology, engineering, and math problem-solving through a project based learning experience.

For students who have just completed grades K-2 and 3-5.
