There are seven financial categories of practice tests. You will complete one test from each category for a total of 70 possible points (each test has a maximum value of 10 points). You must score at least 70% for each test in order to earn credit. If you submit a test with a score less than 70%, you will earn zero points for the test. Pay attention to the required two screen prints to earn credit for each test, explained in detail below.
