

The ParentVUE and StudentVUE mobile apps provide access to most (but not all) of the features and data available in the web version of the [parent and student portal](#). Review this document for the gaps in the mobile apps (Android and iOS) and use the web version for features and data unavailable in the mobile app. More information on ParentVUE and StudentVUE may be found on the [District ParentVUE and StudentVUE pages](#).

Feature/Data	Web Version	Mobile App	Notes
Messages	✓	✓	
Calendar	✓	◆	Web version has daily, weekly and monthly calendar views. Mobile app has only daily and monthly views.
Attendance	✓	◆	All Day attendance notes display in the mobile app, but the All Day Attendance reason displays only in the web version. Teacher Period attendance displays in both.
Class Schedule	✓	✓	
Class Websites	✓	◆	Multiple documents posted by a teacher do not display in the mobile app.
Conference	✓	◆	Conference feature available only for parents of elementary school children. Conference dates/times may be selected only in the web version of ParentVUE.
Course History	✓	✗	
Course Requests	✓	✗	
Grade Book	✓	✓	Mobile app has separate menu items for Daily Assignments and Class Notes. Web version lists all information on a single screen with hyperlinks for details.
Health	✓	✓	Student immunization records only.
Report Card	✓	◆	The Report Card menu item is hidden while teachers post grades at the end of each marking period and is displayed the day report cards are distributed. Some schools may not distribute paper report cards, but upload a PDF Report Card. Report card grades may only be viewed in the mobile app if a school has uploaded a PDF Report Card.
Student Info	✓	◆	Student bus route information not available in the mobile app. Student information may be updated only in the web version of ParentVUE (nickname, physician, emergency contacts, opt outs).
Test History	✓	✗
