**NetTrekker**
- Will link you to student and teacher approved websites with tons of facts, videos, and images related to your topic. Websites can be a great research tool, but be sure to evaluate the author’s expertise, point of view, accuracy, and the publication date.

Issues & Controversies:

- *Education is the only solution. Education first.*

---

124 million children are not being schooled and 24 million will never enter a classroom. Girls represent the highest proportion of these numbers; in south and west Asia alone, 80 percent of out-of-school girls are unlikely to start school, compared to just 16 percent of the boys. — K. Gaywati

Why is this happening? Explain.
Where, specifically, is it occurring?
Why is this issue important?
Get a deeper understanding. Imagine the issue from their point of view. Find evidence - specific facts and figures.
