Show this to your doctor and discuss ways to pay less for your medications.

If you need a long-term medication, you may pay less over time by using home delivery pharmacy services from Express Scripts.[1] We'll deliver up to a 90-day supply right to you - and **standard shipping is free**. Take the home delivery form to your doctor and ask if a 90-day prescription would be right for you. Your doctor can e-prescribe your prescription or fax your prescription to Express Scripts after calling 888.327.9791 for faxing instructions. To learn more about your benefit, log in to Express-Scripts.com and select "Benefit highlights" from the left-hand menu.

Express Scripts may contact your doctor about your prescriptions

If you are prescribed a drug that is not on your health plan's preferred list, yet an alternative plan-preferred drug exists, we may contact your doctor to ask whether that drug would be appropriate for you. If your doctor agrees to use a plan-preferred drug, you will usually pay less.

For short-term prescriptions, such as antibiotics, use a participating retail pharmacy

Prior authorization: When is a coverage review necessary?
Some medications are not covered unless you first receive approval through a coverage review (prior authorization). This review uses plan rules based on FDA-approved prescribing and safety information, clinical guidelines and uses that are considered reasonable, safe and effective.

There are other medications that may be covered, but with limits (for example, only for a certain amount or for certain uses), unless you receive approval through a coverage review. During this review, Express Scripts asks your doctor for more information than what is on the prescription before the medication may be covered under your plan. To find out whether a medication requires a coverage review, log in to Express-Scripts.com anytime, select "Price a medication" from the left-hand menu, and search for your medication. On the pricing results page, select "View coverage notes" to see coverage details.

My Rx Choices®**: An easy way to lower your out-of-pocket prescription costs**
Your **My Rx Choices** prescription savings program is designed to help you find potential savings on prescription medications that you or your covered family members take on an ongoing basis.

My Rx Choices provides you with available lower-cost options so that you and your doctor can make the most informed decisions based on health and cost. No prescription is ever changed without your doctor's approval. Simply log in to Express-Scripts.com/choices. Please take a moment to register before using this service.
