Loudoun School Business Partnership Executive Council seeks HOSTS for juniors and seniors to meet in-person or virtually to be informed of career fields, choices, and qualifications needed.

Career exploration allows YOU to educate students on what a business/career/job would be like in YOUR career field.

LCPS Profile of a Graduate includes learning skills needed for the workforce. Businesses and community organizations have influence over workforce development and access to the pool of talented students during and after their high school careers. Valuable partnerships arise that benefit both sides!
