Basic political and physical geography are incredibly important components to understand the current state of world affairs. Human geography is not just about where things are, but explains how humans interact with their environment and each other. Therefore, it is very important that you have a basic understanding of where different countries are located as we begin this course!

Political Geography:

- Complete the attached maps.
- You will be quizzed over the 1st semester on the following topics – a cumulative map quiz will take place before the AP Exam.
- Refer to the calendars for specific dates of map quizzes. These are subject to change.
